Identify any program or program components (other than courses) to be eliminated if this program is implemented. (Program and course change forms must also be submitted for such related changes.)

The term "psychological science" is a more accurate and up-to-date description of our field of study. It connotes the research emphasis and the integrative nature of the work that we do. Moreover, other departments at major universities across the country (such as the University of Missouri, Indiana University, and Purdue University) use a similar term in the names of their departments. Finally, the new name will reflect the name of the most impactful empirical journal in the field, entitled Psychological Science. There are no foreseeable effects of this name change on other degree programs.

SECTION VII: Catalog Text and Format

In the box below, insert the current catalog text which is to be changed, with changes highlighted with the color yellow. Include all proposed changes identified in Section V. Only changes explicitly stated in Section V will be considered for approval by the University Course and Programs Committee, the Graduate Council and the Faculty Senate.
