We need to have this email attached to our application before the second reading at the college curriculum committee.

Dr. Meullenet,

Appreciation is extended to you and Cathy Hamilton for meeting with me, and Dr. Bob Harrington (April 20, 2011) concerning the Food Technology concentration. The FHNH faculty members and I support this curriculum program change within FDSC. Thank you for including the use of the FHNH minor.

Mary

Dear Mary,

Could I get an email from you stating that HESC is not opposed to the changes proposed to the Food Technology concentration? I apparently need this for the curriculum committee meeting tomorrow afternoon. Thank you in advance. JF
