Academic Policy Series 1622.20A

ADD, CHANGE OR DELETE UNIT, PROGRAM REQUIREMENTS, OR ACADEMIC POLICIES

Complete this form consistent with the instructions in Academic Policy 1622.20. Use the form to add, change, or delete a program or unit or to change program policies. Proposed additions and changes must be consistent with Academic Policies 1100.40 and 1621.10 and any other policies which apply.

SECTION I: Appro	vals							
Department / Program Chair		Date Subi	mitted	Graduate Council Cl	hair	Date		
College Dean		Date		Faculty Senate Chair	r	Date

	posal uses courses the dean of that ac				at college dean's office has been n	otified. The		
SECTION IV: Elimin	nate an Existing	Progran	ı/Unit					
Code/Name	Effective Catalog	g Year						
No new students admitted Allow students in program				rm: Year:				

SECTION V: Proposed Changes to an Existing Program or Program Policies

Insert here a statement of the exact changes to be made: The Poultry Science faculty has recommended the addition of severa POSC courses. This has required a reallocation of hours. We have changed our degree check sheet (see attached) to reflect the recommended course additions
Check if either of these boxes apply and provide the necessary signature:
Program change proposal adds courses offered by another academic college, and that college dean's office has been notified. The signature of the dean of that academic college is required here:
Program change proposal deletes courses offered by another academic college, and that college dean's office has been notified. The signature of the dean of that academic college is required here:
Check all the boxes that apply and complete the required sections of the form:
Change of Name and Code (Complete only sections I, II, V and VII.)
X Change Course Requirements: (Complete all sections of the form except "Proposed Name" in II, section III, and section IV.)
Change Delivery Site/Method (Complete all sections of the form except "Proposed Name" in II, section III, and section IV.)
☐ Change Total Hours (Complete all sections of the form except "Proposed Name" in II, section III, and section IV.) ☐ Change in Program Policies

SECTION VI: Justification

Justify this change and state its likely effect on any other degree program (including those outside the school or college). Identify any program or program components (other than courses) to be eliminated if this program is implemented. (Program and course change forms must also be submitted for such related changes.)

Our faculty felt that the addition of specific course content would better prepare our students for more advanced poultry courses. This impacted our core requirements. In addition, we felt it was important to make adjustments in our poultry curriculum. No changes made impacted other degree programs. These changes will not lead to elimination of any other program. It is simply modernization of our degree.

SECTION VII: Catalog Text and Format

In the box below, insert the current catalog text which is to be changed, with changes highlighted with the color yellow. Include all proposed changes identified in Section V. Only changes explicitly stated in Section V will be considered for approval by the University Course and Programs Committee, the Graduate Council and the Faculty Senate. If you are proposing a new program, give proposed text with all of the elements listed below. If you are proposing modified text, include these elements as appropriate.

Include the following elements, in order, in the catalog text for proposed undergraduate program(s) or program changes:

- State complete major/program name
- Briefly define or describe the major/program or discipline.
- Identify typical career goals or paths for graduates. (Optional)
- State admission requirements (if any) for entry or entry into upper/advanced level of major/program.
- Identify location in catalog of university, college/school, and department/program requirements which the student must meet in addition to hours in the major, but do not restate these requirements.
- State course requirements in the major and any allied areas, giving number of hours and specific courses; specify electives or elective areas and give numbers of hours and courses in elective pools or categories; identify any other course requirements.
- State any other requirements (required GPA, internship, exit exam, project, thesis, etc.).
- Identify name and requirements for each concentration (if any).
- Specify whether a minor or other program component is allowed or required and provide details.
- State eight-semester plan requirements

For minors, state requirements in terms of hours, required courses, electives, etc.

For graduate program/units, include elements (as needed) parallel to those listed for undergraduate programs above.

For Law School program/units, prepare text consistent with current catalog style.

For centers, prepare text consistent with current catalog style.

POULTRY SCIENCE (POSC)

Michael T. Kidd Head of the Department 0114 Poultry Science Center

479-575-4952 http://www.poultryscience.uark.edu/ **FACULTY** • University Professors Chapman, Waldroup (P.W.) • Professors Anthony, Bottje, Clark, Coon, Donoghue (D.), Erf, Goodwin, Hargis, Kidd, Kuenzel, Li, Marcy, Ricke, Slavik, Watkins, Wideman • Research Professors Donoghue (A.), Huff (G.), Huff (W.), Rath • Adjunct Professors Bristor, Haggard, Keck, Plue, Rhoads, Rosen, Steelman, Waldroup (A.), Zelenka • Associate Professors Bramwell, Kwon, Owens • Adjunct Associate Professors Story, Meullenet Assistant Professor Kong • Adjunct Assistant Professors Bacon, Blair, Breeding, Cook, Davis, Fussell, Adjunct Research Assistant Professor Pumford A major in poultry science is designed to provide the scientific and technical education to prepare students for positions of leadership and responsibility in the expanding fields of production, processing, marketing, and distribution of meat, eggs, and related poultry products. The curriculum also prepares students for career opportunities in specialized areas of nutrition, breeding, genetics, physiology, management, food science, immunology, and disease. Elective hours allow students to select a minor and thus personalize their degree. Elective hours can also be used to emphasize areas of business, production, processing or science. Pre-veterinary medicine, pre-medical, or pre-pharmacy requirements may be fulfilled while meeting degree requirements. Curricula are designed to permit the student to obtain the necessary foundation to pursue graduate study for the master's and doctoral degrees. Advanced degrees are offered but not limited to the areas of nutrition, genetics, physiology, product technology, and poultry health. Requirements for a Major in Poultry Science (POSC) State minimum core and discipline specific general education requirements: (Course work that meets state minimum core requirements is in **bold**.) Fall Semester Year 3

4 BIOL 2013/2011L General Microb	biology and lab							
_	emistry and lab (if CHEM 1103/ 1101L a	and						
CHEM 1123/1121L taken previousl 3 POSC 4333 Poultry Breeding or P	POSC/ANSC 3123 Principles of Genetics							
	3/2011L, POSC 3032, AGEC 2303, POSC	4314)						
1 POSC 4811 or 4831 Undergradua	ate Seminar							
13-16 Semester hours								
Spring Semester Year 3								
_	emistry II and lab (if CHEM 3603/3601L	. taken						
previously) or General Elective 2-4 POSC Elective (from PHYS 2033/2031L College Physics II and lab, POSC 3042								
	ntroduction to Agribusiness, POSC 4213							
Integrated Poultry Management)								
3 Upper-Division POSC Elective								
3 Discipline-Related Elective 3 General Elective or BIOL 2323 Ge	eneral Genetics							
17 Semester hours	shera. Cenedas							
Fall Semester Year 4								
3 POSC 3223 Poultry Diseases	Tachnology,							
4 POSC POSC 4314 Egg and Meat T 3 Upper-Division POSC Elective	echnology							
3 AGEC 2403 Quantitative Tools fo	or Agribusiness or General Elective							
3 Discipline- Related Elective								
1 POSC 4811 or 4831 Undergradua	ate Seminar							
14-16 Semester hours Spring Semester Year 4								
1 POSC 4801 Undergraduate Seminar								
3 STAT 2303 Principles of Statistics or AGST 4023 Principles of Experimentation								
(Pre-MATH 1203 or higher) or General Elective								
2-4 POSC Controlled Elective (from PHYS 2033/2031L College Physics II and lab, POSC 3042 Animal Physiology II; AGEC 2303 Introduction to Agribusiness, POSC 4213								
Integrated Poultry Management) or General Elective								
1 POSC 4801 or 4821 Undergraduate Seminar								
3 Discipline-Related Elective 12-14 Semester hours								
124 Total hours								
Minor in Poultry Science ((POSC-M)							
A student planning to minor in	poultry science should consult a dep	partmental						
adviser. The minor consists of 15 hours to include the following:								
POSC 1002 Introduction to Poultry Careers								
POSC 1012 Avian Biology								
POSC 2343 Poultry Production and Management with lab component								
POSC 2353 Breeder Product	tion and Management with lab com	ponent						
with lab component								
Choose 5 hours from any POSC course listing.								
See Page 381 for Poultry Science (POSC) courses.
