

## SECTION V: Proposed Changes to an Existing Program or Program Policies

Insert here a statement of the exact changes to be made: The Department of Anthropology plans to change major requirements for the Anthropology BA degree program, replacing "Approaches to Archaeology" and associated lab (ANTH 3023/3021L), with a new course "Introduction to Archaeology" (ANTH 1033). Adjustments to the 8-semester plan were required to reflect this new requirement and to be sure that students remain in compliance with the college's "40 hour rule" (advanced-level coursework required). The total number of hours required for the major has been reduced from 35 to 34. ANTH 3023/3021L will be moved to the optional Archaeology Specialization as a required course.

Check if either of these boxes apply and provide the necessary signature:

- Program change proposal adds courses offered by another academic college, and that college dean's office has been notified. The signature of the dean of that academic college is required here: \_\_\_\_\_
- Program change proposal deletes courses offered by another academic college, and that college dean's office has been notified. The signature of the dean of that academic college is required here: \_\_\_\_\_

Check all the boxes that apply and complete the required sections of the form:

- Change of Name and Code (Complete only sections I, II, V and VII.)
- Change Course Requirements: (Complete all sections of the form except "Proposed Name" in II, section III, and section IV.)
- Change Delivery Site/Method (Complete all sections of the form except "Proposed Name" in II, section III, and section IV.)
- Change Total Hours (Complete all sections of the form except "Proposed Name" in II, section III, and section IV.)
- Change in Program Policies

## SECTION VI: Justification

*Justify this change and state its likely effect on any other degree program (including those outside the school or college). Identify any program or program components (other than courses) to be eliminated if this program is implemented. (Program and course change forms must also be submitted for such related changes.)*

**The Department of Anthropology course offerings are primarily in the subfields of cultural anthropology, biological anthropology and archaeology. 1000-level introductory courses are available in cultural (ANTH 1023) and biological anthropology (ANTH 1013/1011L) but not in archaeology. With this new course, ANTH 1033, we propose to address and correct two related issues that affect undergraduate students on this campus. First, we wish to offer an introductory course with the same general appeal and broad content typical of the two introductory courses in cultural and physical anthropology. Second, for those undergraduates who wish to pursue archaeology beyond this introduction, this new course would provide the appropriate foundation for archaeology coursework at a more advanced level. Thus, the proposed course will replace ANTH 3023/3021L as the introductory Anthropology major requirement, enabling us to expand the size of the introductory class considerably. The increased class size will allow Anthropology majors to enroll in the course with less difficulty and will allow a much larger number of non-majors to enroll in the class as well. We do not anticipate that this change will impact any other degree programs, and no program components will be eliminated.**

## SECTION VII: Catalog Text and Format

*In the box below, insert the current catalog text which is to be changed, with changes highlighted with the color yellow. Include all proposed changes identified in Section V. Only changes explicitly stated in Section V will be considered for approval by the University Course and Programs Committee, the Graduate Council and the Faculty Senate. If you are proposing a new program, give proposed text with all of the elements listed below. If you are proposing modified text, include these elements as appropriate.*

**Include the following elements, in order, in the catalog text for proposed undergraduate program(s) or program changes:**

- State complete major/program name
- Briefly define or describe the major/program or discipline.
- Identify typical career goals or paths for graduates. (Optional)
- State admission requirements (if any) for entry or entry into upper/advanced level of major/program.
- Identify location in catalog of university, college/school, and department/program requirements which the student must meet in addition to hours in the major, but do not restate these requirements.
- State course requirements in the major and any allied areas, giving number of hours and specific courses; specify electives or elective areas and give numbers of hours and courses in elective pools or categories; identify any other course requirements.
- State any other requirements (required GPA, internship, exit exam, project, thesis, etc.).
- Identify name and requirements for each concentration (if any).
- Specify whether a minor or other program component is allowed or required and provide details.
- State eight-semester plan requirements

**For minors, state requirements in terms of hours, required courses, electives, etc.**

For graduate program/units, include elements (as needed) parallel to those listed for undergraduate programs above.

For Law School program/units, prepare text consistent with current catalog style.

For centers, prepare text consistent with current catalog style.
