

College	Academic Level	Course ID	Subject/ Catalog #	Course Title	Core Course	Last Term With Enrollment	Justification	If "Other" Please Comment
AFLS	GRAD	010254	AGED 5001	SEMINAR	No	Spring 2002		We hold regular seminars, but do not currently offer credit because this course is only for 1 credit and 1 credit courses do not fit conveniently in a student's MS program. We are considering changing the course to 3 credits so we can return it to our program rotation. With revision, we plan to re-insert this course into our rotation.
							Other	
AFLS	GRAD	010269	AGED 550V	COLLEGE TEACHING IN AGRIC	No	Fall 2007		The AGED 550V course is currently offered to our students as a similar course through the AgIDEA consortium from the University of Missouri. Our course is older but we stopped offering it and began using the Missouri course shortly after our instructor became department head, was told by admin to reduce his teaching load, and we joined the AgIDEA network. Our participation in the AgIDEA consortium is a year-to-year, based on negotiations well above my pay grade, Global Campus decisions, and other such factors. If and when we no longer have access to the consortium courses, or when the current department head steps down from those duties, we plan to teach this course again.
							Other	
AFLS	GRAD/ UGRD	013872	ENTO 4133	ADVANCED APPLIED ENTO	No	Fall 2008		Course was inactive due to personnel shortage. However, recent personnel changes allows this course to be offered in Spring 2015
							Other	
AFLS	GRAD/ UGRD	014003	EXED 4183	MGMT OF VOLUNTEER PROGRAMS	No	Spring 2002		The EXED 4183 and EXED 5113 are both content area courses for a specific concentration in our MS in Agricultural and Extension Education degree. There are at least 2 factors which have worked together in our decision-making process to offer these courses in recent years: 1) the aforementioned access to similar courses through AgIDEA (which is tenuous), and 2) lack of critical mass of MS students to offer them over the recent period. In the past 3 years our number of active MS students who have an Extension concentration has been trending upwards. We really need to have some concentration-content courses to offer them. Therefore, we expect to re-insert these courses into our course sequence in the future.
							Other	
AFLS	GRAD	014001	EXED 5113	PROGRAM DEV & EVALUATION	No	Spring 1999		The EXED 4183 and EXED 5113 are both content area courses for a specific concentration in our MS in Agricultural and Extension Education degree. There are at least 2 factors which have worked together in our decision-making process to offer these courses in recent years: 1) the aforementioned access to similar courses through AgIDEA (which is tenuous), and 2) lack of critical mass of MS students to offer them over the recent period. In the past 3 years our number of active MS students who have an Extension concentration has been trending upwards. We really need to have some concentration-content courses to offer them. Therefore, we expect to re-insert these courses into our course sequence in the future.
