Re: Proposed Minors

Dear Dean MacKeith:

With this letter, I am pleased to express support of the proposed college-wide minors in History of Architecture and Design and Preservation Design in the Fay Jones School and Design. Together, the proposed minors provide a cohesive area of specialization for students who aim to provide design services in the restoration and adaptive use of historic properties, a significant and ever-expanding area of design practice. Having practiced in the historic preservation sector the last 30 plus years, I can attest there is a need and there is a void.

I strongly support these two curriculum proposals, for I believe that graduates in with advanced training in these areas are in in high demand in both private design practices as well as in public sector agencies and non-profits charged with stewardship of the made-environment.

Thank you for the opportunity to submit my support.

Cordially,
JAMESON Architects PA

I personally wished this was available while at the University – because it was not, I simply ended up with an “emphasis” in Architectural History.

Sincerely,
