Description and
justification of the
request:

Justification for omitting "early music performance practice": We do not have any students currently enrolled in the early performance practice portion of this concentration nor have we had a person pursuing this part of the MM in history for a long time. Lack of interest and enrollment along with the absence of an early music specialist would seem to warrant the elimination of this part of the concentration.

Justification for theory change: The proposed changes to the theory curriculum better reflect the current broad spectrum of music theory studies and research. The new option will give students the opportunity to embrace the theoretical approach most relevant to their educational path. We believe these options also will better engage students and aid in retention.

Program reviewer
comments

ddraper (05/20/16 3:55 pm): Made additional edits per the department's request: Removed the descriptive phrase that immediately followed the concentration heading, "(Music history, early music performance practice)" Corrected the credit hours for the "select one of the following" list in section I to reflect 2-3 credit hours. Corrected the credit hours for the electives so that the electives take into account the variable hours possible to satisfy section I and so the total number of credit hours required for the degree remains 36.

pkoski (05/21/16 11:21 am): Rollback: Please state what changes are, under description and justification of change
