~~Department of Landscape Architecture Honors Program Landscape Architecture Honors Mentors Each Honors student shall have a department faculty adviser who will consult with the student throughout the university experience. The adviser will meet with the student every fall and spring semester. These sessions are venues for students to discuss their honors emphasis or concentration, academic progress, course work, community service activities, and leadership development opportunities. Landscape Architecture Honors Thesis An Honors student will be required to fulfill 6 credit hours of a written academic thesis. For the written thesis, the student shall take a 3 credit hour professional elective directly related to the thesis topic, and 3 credit hours of Special Projects with student's thesis adviser or other faculty designee. Landscape Architecture Study students will be required to take two 3 credit hour Thesis courses as fulfillment of the 6 credit thesis requirement. The last requirement will be a presentation and defense of the work to a jury from the department and other relevant academic advisers. All Honors students are highly encouraged to take a research methods course within the subject or topic area prior to thesis work. Landscape Architecture Honors Courses Honors courses within the Professional Core may be fulfilled through independent study or additional honors level work within the History of Landscape Architecture, Contemporary Landscape Architecture, Planting Design, Historic Preservation, Seminar, Construction II, III, and Construction IV courses and Senior Demonstration Project Prep course. The student may also select honors work within Design Studio IV, V, VI, VII, or VIII. Additional work may include in-depth precedent research and design applications with a focus on research and writing as the product of additional work in the declared area of emphasis or concentration. Specific honors output expectations will be determined by the course instructor. In addition, a student may choose an independent studio with mutual faculty agreement. This studio option is in addition to the required studios in the professional program and would only be available during the spring or summer semester of the fourth or fifth year. Description and justification of the request: We are forming one overall honors program for the entire school. Departmental requirements will not longer exist. All FJSOA+D students will follow the same requirements. This will make the honors program easier to advise and much more transparent.

Program reviewer **lkulcza (11/29/16 4:29 pm)**: This change does not require ADHE approval/paperwork, but we do need to submit it as a deletion in order to inactivate the CIM program code
