Reason for offering

Web-based Program

The market has moved to online programming to supplement face-to-face courses and/or add to a college's educational offerings. More and more of our peer and aspirant colleges of business have moved to some form of online programming (see for example, <http://www.businessinsider.com/harvard-business-school-online-courses-2013-10>). In addition, offering a degree online strategically positions the College to capture new markets (e.g., students abroad, degree completion, CPA requirements, and adult learners). The courses required for the Online Minor in Accounting are already being offered for the Online BSBA in General Business, the Online BSBA in Accounting. The on-line sections are also available as options for the on-campus degree-seeking students, as allowed under University requirements.

Description and justification of the request

Description of specific change	Justification for this change
Add ACCT 4203, Fundamentals of Taxation to the list of Accounting options. Offer the Minor in Accounting for Business Majors in the online format.	We previously deleted ACCT 4753, Intermediate Accounting II from the list of Accounting options. Adding ACCT 4203, Fundamentals of Taxation offers another elective option for students. The market has moved to online programming to supplement face-to-face courses and/or add to a college’s educational offerings. More and more of our peer and aspirant colleges of business have moved to some form of online programming (see for example, http://www.businessinsider.com/harvard-business-school-online-courses-2013-10).
