

## CIM Report Dec 6, 2018 9:12am

### Course Changes Pending Approval from University Course and Program Committee

Code	Field	Old Value	New Value
AGST 4011			Inactivated/Deleted
AGST 5803			Inactivated/Deleted
CHEM 1101L	Proposed Effective Date	Fall 2017	Fall 2018
	Justification	Updated typically offered field.	While the first semester lab is recommended, it is not a co-requisite for the Chemistry I lecture. However, it is very important that students taking the lab have the lecture so they understand the concepts explored in the laboratory. When the requirement to take the lab with the lecture was relaxed because of space issues, we accidentally removed the reverse requirement. We have students in grade trouble in the lecture dropping it and trying to stay in the lab, which concerns us. The only change proposed here is to add back the lecture pre- or co-requisite for those taking the lab.
	Pre- or Corequisite(s)		CHEM 1103
	Syllabus		CHEM 1101L Syllabus-Fall 2018.docx
FDSC 2723			Added
HESC 5111			Added
HESC 5211			Added
LARC 2351			Added
LARC 2361			Added
LARC 2371			Added
LARC 3123	allcodes	LARC 2123	LARC 3123
	Proposed Effective Date	Summer 2018	Fall 2019
	Course Number	2123	3123
	Catalog Title	Design Communications II	Advanced Design Visualization, Inquiry and Communications
	Catalog Description	Builds upon LARC 2113 by introducing advanced graphic techniques increasingly utilized in the communication of landscape design and planning, and in professional practice. Focus is on software required for sophisticated renderings and visualizations, and to manage and interpret landscape data to the regional level.	Students learn the applications of current communication techniques and technologies in landscape architecture to discover implications through inquiry. Field work and other modes of investigation and seeing are used around urbanization and large scale landscapes in design inquiry. Students learn how to communicate the implications of design to broad stakeholders.
	Title/Description Change Type	Minor (stylistic/editorial) Change	Major Content Change
	Justification	Updated typically offered field.	This course has been updated with a new title, course description and learning outcomes as part of an overall reconstruction of our four-year professional degree in Landscape Architecture (LARCBL).
	Course Code	LARC 2123	LARC 3123

LARC 3375		Added	
LARC 3381		Added	
LARC 3734	Proposed Effective Date	Summer 2018	Fall 2019
	Catalog Title	Landscape Architecture Construction III	Sustainable Design and Construction: Material and Methods of Assembly
	Catalog Description	(Structures) Introduction into the design and fabrication methods of structures in the landscape. Emphasis on statics in calculating sizes and selection of materials for free-standing and retaining walls, and wooden structures. Advanced technical drawing component and computer integration of drawing production. Lecture and laboratory.	Introduces students to issues in material selection including properties, construction techniques, practical considerations in material use and subsequent implications and effects on the built environment. Material use and human experience are also explored. Technical documentation methods as a means of conveying design intent are included.
	Title/Description Change Type	Minor (stylistic/editorial) Change	Major Content Change
	Justification	Updated typically offered field.	This course has been updated with a new title, course description and learning outcomes as part of an overall reconstruction of our four-year professional degree in Landscape Architecture (LARCBL).
