Program Goals and Objectives

Program Goals and Objectives

The goal of the poultry science curriculum is to promote a fundamental understanding of poultry science across sub-disciplines, with an emphasis on the scientific basis underlying the poultry industry. The objective of the required POSC courses is to provide an overview of poultry-related careers, production practices, poultry anatomy, and disciplines that include physiology, diseases, genetics, nutrition, processing, and products.

Learning Outcomes

Learning Outcomes

Student Learning Outcome 1. Students will demonstrate knowledge of the basic principles of production, anatomy, physiology, genetics, nutrition, health, and disease identification as related to poultry.

Learning Outcomes

Student Learning Outcome 2. Students develop critical-thinking skills that apply to issues and problems faced by the poultry industry.

Student Learning Outcome 3: Students will be able to communicate summaries of lab activities, interpret results of problem-solving activities and summarize results of research in written and oral communication

Description and justification of the request

Description of specific change	Justification for this change
The core requirements have been changed to reflect 10 hours. In addition, students have to choose two POSC Controlled electives for six hours.	<p>The change is due to POSC 1002 and POSC 1012 being combined to reflect POSC 1003. POSC 2353 is now an option for a controlled elective.</p> <p>Additional courses were added to POSC controlled electives to give the student that is obtaining a minor a greater selection of courses.</p>

Reviewer Comments

Alice Griffin (agriffin) (10/10/19 4:36 pm): Rollback: Changes to minors no longer require off campus approval. Please change the reason for the modification to "making minor changes." This action will influence the approval workflow to only include campus approvers. Only submitters can influence the workflow. In addition, work with Vicky Watkins to hyper-link the courses listed in the program requirements field. Plus do not use abbreviations. Spell out hours.

Alice Griffin (agriffin) (10/29/19 5:06 pm): POSC 1003 is currently pending AFLS Dean Initial approval. POSC 3033 is currently pending UCPC approval.

Lisa Kulczak (lkulcza) (10/30/19 12:46 pm): Rollback: Please adjust the reason for this proposal from "Revising Curriculum of an Existing Certificate or Degree" to "Making Minor Changes"-- this will trigger the correct on-campus only workflow.

Alice Griffin (agriffin) (11/08/19 2:56 pm): Replaced scheduled program review date. Minors do not conduct program reviews.
