The Graduate Certificate in Enterprise Systems is a part-time program offered on campus, blended, and online. It is designed to provide graduate students with knowledge and experience in information systems used in modern enterprise environments. The demand for skilled professionals in information systems continues to outpace the supply of qualified applicants. Students may choose one of four tracks for the Graduate Certificate in Enterprise Systems: Blockchain Enterprise Systems, Business Analytics, Cybersecurity and Data, or Enterprise Resource Planning. The certificate program is intended to be completed part-time (ordinarily no more than six hours per semester), and is open to individuals with backgrounds in any discipline.

Admission Requirements: The Graduate Certificate in Enterprise Systems is a part-time program open to individuals with backgrounds in any discipline. Students must apply and be admitted to the Graduate School of Business; the GMAT/GRE requirement is waived for the Graduate Certificate in Enterprise Systems degree program. (Students who have earned a GPA 3.5 or better upon completion of the certificate program and subsequently apply to the part-time Master of Information Systems program (Professional M.I.S.) will not be required to submit a test score). Information regarding Graduate School of Business admission requirements can be found earlier in this chapter.

Requirements for the Graduate Certificate in Enterprise Systems: (12 hours)

To receive the Graduate Certificate in Enterprise Systems, students must select one of the tracks below. Students are required to take 9 hours of coursework in the Walton College of Business and 3 hours of electives related to Enterprise Systems in either the Walton College or in another college at the University of Arkansas. Elective courses other than those listed below must be approved by the director of the certificate program. Some elective courses have prerequisites that are not met by courses in the certificate program. Students are advised to check prerequisites prior to enrolling in a course.

Required Course

Choose at least one of the following depending on the track chosen:

ISYS 5013 DATA AND CYBERSECURITY

ISYS 5173

ISYS 5103

ISYS 5213

Course ISYS 5013 DATA AND CYBERSECURITY Not Found

Blockchain Fundamentals

Data Analytics Fundamentals

ERP Fundamentals

Blockchain Enterprise Systems Track

This track is open to individuals with backgrounds in fields other than Information Systems and is designed to provide non-IS graduate students with the fundamental knowledge and skills needed to successfully transition to a career in the Information Systems field. Students who complete this track will have exposure to fundamental principles of blockchain, enterprise information systems, and techniques for management and development of blockchain projects.

Required Courses (9 hours)

| | | |
|--|---|---|
| ISYS 5173 | Blockchain Fundamentals | 3 |
| ISYS 5133 | Blockchain and E Business Development | 3 |
| ISYS 5453 | Blockchain and Enterprise Data | 3 |
| Students should choose 3 hours of coursework from among the following: | | 3 |
| ISYS 5103 | Data Analytics Fundamentals (recommended) | |
| ISYS 5213 | ERP Fundamentals | |
| ISYS 5463 | Enterprise Transaction Systems | |
| ISYS 5833 | Data Management Systems | |

Total Hours

12

Cybersecurity and Data Track

This track is open to individuals with backgrounds in any discipline and is designed to provide business and non-business graduate students a foundation to help organizations assess and detect threats while securing and protecting data and data-driven systems against a myriad of threats such as malicious software, hacking, insider threats, and other cybercrimes.

Required Courses:

Business Analytics Track

This track is open to individuals with backgrounds in any discipline and is designed to give business and non-business graduate student's knowledge and experience in the management and use of enterprise data for operations and decision-making. The ability to effectively manage and analyze increasingly large and complex sets of data is highly valued among employers in all disciplines, as "business intelligence" becomes a primary source of competitive advantage in many organizations. Students who complete this track will have a foundation in the effective management and use of relational and dimensional data, the application of statistical decision-making theory, and the exploration and exploitation of data using advanced data mining tools and techniques. Students completing this track may be eligible to receive a certificate endorsed by the SAS Institute.

Required Courses (9 hours)

| | | |
|----------------------------------|---|---|
| <u>ISYS 5103</u> | Data Analytics Fundamentals | 3 |
| <u>ISYS 5503</u> | Decision Support and Analytics | 3 |
| <u>ISYS 5843</u> | Seminar in Business Intelligence and Knowledge Management | 3 |

Students should choose 3 hours of coursework from among the following:

3

| | |
|----------------------------------|---|
| <u>ISYS 511V</u> | IT Toolkit & Skills Seminar (this course may not be used for the Masters of Information Systems Degree) |
| <u>ISYS 5133</u> | Blockchain and E Business Development |
| <u>ISYS 5213</u> | ERP Fundamentals |
| <u>ISYS 5423</u> | Seminar in Systems Development |
| <u>ISYS 5833</u> | Data Management Systems |

Total Hours

12

Enterprise Resource Planning Track

This track is open to individuals with backgrounds in any discipline and is designed to provide business and non-business graduate students a foundation in the effective use, implementation, and customization of Enterprise Resource Planning (ERP) systems. ERP systems support integrated core business processes in nearly every large organization, and knowledge of and experience with these systems are highly valued among employers in all business disciplines. Students who complete this track will have exposure to fundamental principles of ERP and techniques

for configuration, implementation, and development of ERP systems. Students completing this track may be eligible to receive a certificate endorsed by SAP America and the SAP University Alliances Program.

Required Courses (9 hours)

| | | |
|--|---|-----------|
| <u>ISYS 5213</u> | ERP Fundamentals | 3 |
| <u>ISYS 5223</u> | ERP Configuration and Implementation | 3 |
| <u>ISYS 5233</u> | Seminar in ERP Development | 3 |
| Students should choose 3 hours of coursework from among the following: | | 3 |
| <u>ISYS 511V</u> | IT Toolkit & Skills Seminar (recommended) | |
| <u>ISYS 5103</u> | Data Analytics Fundamentals | |
| <u>ISYS 5173</u> | Blockchain Fundamentals | |
| <u>ISYS 5453</u> | Blockchain and Enterprise Data | |
| <u>ISYS 5833</u> | Data Management Systems | |
| Total Hours | | 12 |

Program Goals and Objectives

Program Goals and Objectives

CRITICAL THINKING/PROBLEM SOLVING

Students who have completed the Graduate Certificate in Enterprise Systems will be able to identify, analyze, compare, and select systems and data to provide solutions to business problems using enterprise technology.

Program Goals and Objectives

TECHNICAL COMPETENCE (Discipline Knowledge)

Students who have completed the Graduate Certificate in Enterprise Systems will be able to develop and implement enterprise solutions to business problems.

Learning Outcomes

Learning Outcomes

Learning Objective (CTPS): Students will demonstrate critical thinking and strategic problem solving through classroom projects and/or exams.

Learning Objective (TCDK): Students will demonstrate the ability to design, develop, and utilize enterprise technology appropriately in the context of business applications.

Description and justification of the request

| Description of specific change | Justification for this change |
