Yes, MAECON is fine with the recommendation below to remove the word "concentration." Thank you again for interceding on this one!

**Subject:** ECONMA Question

Mike,

See the excerpt below from the program requirements for ECONMA. Can we eliminate the use of the word "Concentration" in these statements? Maybe just say "Applied Field course work" instead? "Concentration" has a very specific meaning in the terminology used on our campus. Thoughts?

Thanks,  
Lisa
