

MEMORANDUM OF AGREEMENT
Associate of Arts in Teaching
University Agreement

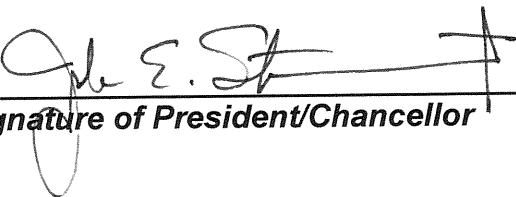

Effective Fall 2021, the revised Associate of Arts in Teaching (AAT) will be offered for transfer to Arkansas public universities. All institutions accepting the AAT for transfer will:

1. Accept the AAT degree as adopted in this document without course substitutions, course additions or other program changes.
2. Accept and apply all AAT courses toward the total semester credit hours required for the bachelor's degree in Middle School or K-6 Elementary Education.
3. Admit qualified AAT students to the College of Education with junior status.
4. Inform students that the institution accepts the AAT degree for transfer and publish the bachelor's degree completion plans for Middle School and K-6 Elementary Education.
5. Inform the Arkansas Division of Higher Education before implementing Middle School and K-6 curricular changes so that ADHE can determine the impact on the AAT degree.
6. Submit written notification to the Arkansas Division of Higher Education at least one year prior to the effective date for termination of this agreement. If this agreement is terminated, all AAT students enrolled in the bachelor's degree completion program will be allowed to complete the Middle School or K-6 Elementary Education.
