#### Fall 2022

Allow students in program to complete through:

Spring 2023

4/8/22, 10:23 AM

Number of students still enrolled:

3

Courses Deleted as a result of this action:

How will students in the deleted program be accommodated?

We will be able to accommodate students by moving them to the Bachelor of Science in Architectural Studies. They can continue to take any and all LARC courses which will, in turn, be reflected on the student degree audit and transcript. Upon graduation with the ARSTBS, the LARC department head and/or selected faculty can write letters of recommendation supporting student trajectories. Out of the three remaining students, one is set to graduate this spring 2022. The remaining two will graduate next spring and one incoming for this summer will be advised accordingly.

How will funds from the deleted program be reallocated?

No funds were ever allocated since the degree was created based on existing programs.

LARCBS - Deletion - Ltr of Notification.pdf

Justification for this

request

The Bachelor of Science in Landscape Architectural Studies was created to provide an alternative stream for students interested in Landscape Architecture but who did not aspire to professional practice. Although a required 5- year Program Review in 2016 underscored the utility of the degree as a path for students interests in the natural environment and sustainable practices for its future, enrollment has been disappointing, consistently dropping since that review. Enrollment numbers, provided by the Provost's Office, have raised questions about the program's viability and despite efforts to increase enrollment, the program is not producing a sufficient number of graduates annually to justify its continuation. Students seeking alternatives to professional undergraduate programs in the Fay Jones School will be served by the Bachelor of Architecture Studies degree, with provides ample electives hours to allow focus on issues of the land, its planning and stewardship.

Program Goals and

Objectives

#### **Program Goals and Objectives**

Curriculum goal: To offer a connected design curriculum with supporting programs and activities that arm the students with skills and knowledge to enter the work force, offer a strong liberal arts education leading to community service and a global perspective, and embrace flexibility for students to pursue their own areas of interest and expertise.

Faculty development goal: To promote and support faculty teaching, research, creative activity, scholarship, and service.

Research/creative activity integration goal: To emphasize the importance of research and creative activity and its integration into the class room and the public service sector.

Public service goal: To engage in public service opportunities that support teaching, research, and the profession.

Student recruitment-retention goal: To attract and retain diverse students, faculty and staff of the highest possible quality in keeping with the University's desire for increasing the number of students who graduate.

Resource allocation goal: To maximize use of facilities and maintenance budget as creatively as possible to foster a positive learning environment.

Alumni/Professionals linkage goal: To foster a growing relationship between

the department alumni and professionals in supporting program goals

#### **Learning Outcomes**

#### **Learning Outcomes**

BSLA graduates should exhibit habits and dispositions of the profession, including professional ethics and values.

BSLA graduates should demonstrate the ability to employ critical thinking in the development of their work and the assessment of peer work.

BSLA graduates should demonstrate knowledge of natural systems and engage an ethic of stewardship to promote ecosystem health through landscape design and management.

BSLA graduates should demonstrate knowledge of cultural and social systems and sensitivity to cultural and social contexts.

BSLA graduates should demonstrate knowledge of, and sensitivity to, overlying cultural and natural patterns that give rise to local identity and sense of place.

BSLA graduates should demonstrate knowledge of meaningful community engagement.

BSLA graduates should demonstrate knowledge of public policy and regulation as it relates to the land.

BSLA graduates should demonstrate the ability to undertake self-directed reading and research.

BSLA graduates should demonstrate the ability to engage critically with theories and debates about the landscape.

BSLA graduates should demonstrate knowledge of the history of landscape architecture.

BSLA graduates should be able to critically engage with current and historical precedents of landscape architecture.

BSLA graduates should demonstrate effective and appropriate written communication.

BSLA graduates should demonstrate professional public speaking and presentation skills.

BSLA graduates should demonstrate the capacity to engage critical issues of sustainability.
