result of this action:

How will students in
the deleted program
be accommodated?

Relevant faculty will continue to offer substituted classes or review course options as needed. Since the minor was created from existing courses, there was always an overlap from students' major coursework and this minor path. So no relict or dead classes will exist in students' paths toward graduation.

How will funds from
the deleted program
be reallocated?

No funds were ever allocated since the minor was created based on existing programs.

Justification for this
request

Increasingly, the students interested in this minor are coming from the Fay Jones School of Architecture -- where it should be administered, not in ARSC. Also, since the co-creator of the minor, Tom Green (ANTH), is long retired, the minor has created an unwarranted burden on the remaining co-creator with advising, substitution justifications, and offering the capstone course (GEOS 3033) as a directed readings course to ~1 student each year.
