Program Requirements and Description

Requirements

Apparel Merchandising and Product Development students will have the opportunity to broaden their international knowledge of the apparel industry by participating in a semester long study abroad program. This program will be offered in the Fall semesters at the Rome Center in Rome, Italy. Apparel Merchandising and Product Development curriculum will provide an on-site study of apparel courses focusing on trend forecasting, styling, fashion illustration, fashion design and pattern development (draping) or elective. The 18-credit hour program will complete a minor in AMPD Global Experiences. Classes include:

Required Courses:

6

Program Goals and Objectives

Program Goals and Objectives

Purpose

The Bumpers College International Programs’ mission is to “provide structured international experiences that enhance the marketability of students for career and academic opportunities.” The proposed study abroad program at the University of Arkansas Rome Center provides an intensive experiential learning opportunity that is structured to enhance students’ marketability in two ways.

First, the students will be utilizing and refining their experiences from the classroom at the University of Arkansas to a global setting. Students will have the opportunity to experience classroom instruction at the University of Arkansas Rome Campus. This experience is valuable for students who will one day work with global companies in a professional environment. Experiencing the Italian culture and customs firsthand will make a lasting impression on those who participate in this study abroad program.

Second, the experience of having practiced (and further developed) their education in and across cultures, including language barriers, will add considerable depth to the students’ range of professional skills and experiences. This unique study abroad experience will enhance students’ level of competitiveness in their professional job market upon graduation, setting them apart from their peers.

Learning Outcomes

Learning Outcomes

Learning outcomes of the Italy study abroad program is to:

1. To gain a deeper knowledge and understanding of international cultures in the apparel industry.
2. To engage in the academic process with local and international instructors through coursework, and workshops.
3. To develop an understanding of different perspectives of the Italian fashion market through on-site instructors.
4. To create visual projects through the Italian experience and cultural influence.
5. To examine and understand the cultural, social, and environmental drivers and their impact on the global fashion industry.
6. To identify trends in design and fashion production, wholesaling, and retail marketing through the lens of the Italian apparel industry.

Description and Justification for this request

Description of request	Justification for request
Adding AMPD Global Experience minor	The Apparel Merchandising and Product Development Program (AMPD) is creating a study abroad experience specifically designed for students studying at the Rome Center and interested in the apparel business. This

Description of request	Justification for request
	experience will enhance the learning environment and cultural awareness of the global apparel industry. Students will immerse in the Italian culture, hailed as the birthplace for luxury fashion goods. Students will take courses that are supplemental to UAF AMPD courses.

Reviewer Comments

Alice Griffin (agriffin) (11/15/22 9:21 am): Entered course titles for proposed courses. College is encouraged to review for accuracy.

Alice Griffin (agriffin) (11/16/22 2:57 pm): Rollback: Please update the submitter and phone number fields. Also, please review the attachment. The coursework listed does not match the curriculum in the program requirements field. Finally, please revise the program costs field. This field requires the costs to the institution, not the costs for students.

Alice Griffin (agriffin) (12/01/22 5:03 pm): Besides the AMPD prerequisite, there are a total of nine hours of prerequisites that are not included in the minor requirements. Still within the 33 hour maximum for academic minors.

Alice Griffin (agriffin) (12/21/22 9:16 am): Courses in red have all passed Faculty Senate.
