Course Changes Pending Approval from Undergraduate Council

Code	Field	Old Value	New Value
AGEC 11003	Pre- or Corequisite(s)	MATH 11003.	MATH 11003 or higher, or a score of at least 26 on the math component of the ACT exam, or a score of at least 600 on the math component of the old SAT or 620 on the math component of the new SAT.
	Justification	The cross-listing is being removed because the two courses are no longer equivalent, and maintaining them as separate courses will more accurately reflect their distinct academic purposes.	The Pre- or Corequisite(s) of MATH 11003 alone was causing our students who have qualifying math scores to "exempt out" of MATH 11003 or students who took a higher level of math to be unable to self-enroll in this course. This change aligns us more closely with the Walton College requisites (ours is co-rather than pre-) for similar courses covering similar materials.
