

UNIVERSITY COURSE AND PROGRAMS COMMITTEE

AGENDA

April 24, 2009

2:30 PM

Upchurch Conference Room

1. Approval of minutes for March 27, 2009. Meeting minutes can be viewed at <http://www.uark.edu/depts/gradinfo/dean/courseprog/minutes/index.html>.
2. Consent Agenda (Course change proposals can be reviewed at <https://www2.uark.edu/web-apps/regr/ccf/Main> or by going to the website of the Registrar and clicking on "Faculty/Staff" then "Curriculum Change Form," and then "View Changes Pending Before the University Course and Programs Committee.")
 - a. Undergraduate Course Change Proposals ([Table A](#))
 - b. Graduate and Dual course Change Proposals ([Tables B and C](#))

3. Old Business:

Proposed graduate program change for the Graduate School - Department of Health Science Kinesiology, Recreation and Dance - ATTRMA – Masters of Athletic Training ([Table 2](#), [Attachment 2A](#) and [Attachment 2B](#)), and KINSMS – MS, Kinesiology - Athletic Training Concentration ([Table 2](#), [Attachment 2C](#) and [Attachment 2D](#)).

4. New Business:

- a. Proposed undergraduate program change for the Fulbright College of Arts and Sciences – All Majors – Fulbright Core ([Table 1](#), [Attachment 1A](#)).
- b. Proposed undergraduate program change for the Fulbright College of Arts and Sciences – All Majors – University State Core ([Table 1](#), [Attachment 1B](#)).
- c. Proposed undergraduate program change for the Fulbright College of Arts and Sciences – Department of Economics – ECNCBA – BA, Economics ([Table 1](#), [Attachment 1C](#)).
- d. Proposed undergraduate program change for the Fulbright College of Arts and Sciences – Department of History – HISTBA – BA, History ([Table 1](#), [Attachment 1D](#)).
- e. Proposed undergraduate program change for the Fulbright College of Arts and Sciences – International Relations Program – IRELBA – BA, International Relations ([Table 1](#), [Attachment 1E](#)).
- f. Proposed undergraduate program change for the Fulbright College of Arts and Sciences – Department of Journalism – JOURBA – BA, Journalism ([Table 1](#), [Attachment 1F](#)).

- g. Proposed undergraduate program change for the Fulbright College of Arts and Sciences – Department of Music – All BA and BM Majors ([Table 1](#), [Attachment 1G](#)).
- h. Proposed undergraduate program change for the Fulbright College of Arts and Sciences – Department of Music – MUSC-M – Minor in Music ([Table 1](#), [Attachment 1H](#)).
- i. Proposed undergraduate program change for the Fulbright College of Arts and Sciences – Russian Studies Program – RSST – Second or dependent major ([Table 1](#), [Attachment 1I](#) and [Attachment 1J](#)).
- j. Proposed graduate program change for the Department of Rehabilitation, Human Resources and Communication Disorders – Vocational Education MAT – ([Table 2](#), [Attachment 2E](#) and [Attachment 2F](#)).
- k. Proposed graduate program change for the Department of Rehabilitation, Human Resources and Communication Disorders – HIEDES – EDS, Higher Education – ([Table 2](#), [Attachment 2G](#) and [Attachment 2H](#)).
- l. Proposed graduate program change for the Department of Physics – APHYMS – MS, Applied Physics ([Table 2](#), [Attachment 2I](#) and [Attachment 2J](#)).

5. Other Items for Consideration:

Election of new committee chair.

SECTION V: Proposed Changes to an Existing Program or Program Policies

Insert here a statement of the exact changes to be made: Request to change the current concentration in Athletic Training within the M.S. Kinesiology degree program to a separate degree (Master of Athletic Training).

Check if either of these boxes apply and provide the necessary signature:

- Program change proposal adds courses offered by another academic college, and that college dean's office has been notified. The signature of the dean of that academic college is required here: _____
- Program change proposal deletes courses offered by another academic college, and that college dean's office has been notified. The signature of the dean of that academic college is required here: _____

Check all the boxes that apply and complete the required sections of the form:

- Change of Name and Code (Complete only sections I, II, V and VII.)
- Change Course Requirements: (Complete all sections of the form except "Proposed Name" in II, section III, and section IV.)
- Change Delivery Site/Method (Complete all sections of the form except "Proposed Name" in II, section III, and section IV.)
- Change Total Hours (Complete all sections of the form except "Proposed Name" in II, section III, and section IV.)
- Change in Program Policies

SECTION VI: Justification

Justify this change and state its likely effect on any other degree program (including those outside the school or college). Identify any program or program components (other than courses) to be eliminated if this program is implemented. (Program and course change forms must also be submitted for such related changes.)

The decision to request the above stated change was based upon the following: 1) The Commission on Accreditation of Athletic Training (CAATE) requires that all accredited programs be either degree programs or majors e.g. Master of Athletic Training or MS in Athletic Training instead of a concentration, 2) currently within the United States there are 18 entry level graduate programs in the area of Athletic Training and the University of Arkansas program is the only one which is not a degree program, and 3) the number of students enrolled in the Athletic Training concentration during the past three years has ranged from 24 - 30 and the number of program graduates has been 12, 14, and 13 respectively. These numbers indicate that the program is highly viable and without accreditation the program would cease to exist.

SECTION VII: Catalog Text and Format

In the box below, insert the current catalog text which is to be changed, with changes highlighted with the color yellow. Include all proposed changes identified in Section V. Only changes explicitly stated in Section V will be considered for approval by the University Course and Programs Committee, the Graduate Council and the Faculty Senate. If you are proposing a new program, give proposed text with all of the elements listed below. If you are proposing modified text, include these elements as appropriate.

Include the following elements, in order, in the catalog text for proposed undergraduate program(s) or program changes:

- State complete major/program name
- Briefly define or describe the major/program or discipline.
- Identify typical career goals or paths for graduates. (Optional)
- State admission requirements (if any) for entry or entry into upper/advanced level of major/program.
- Identify location in catalog of university, college/school, and department/program requirements which the student must meet in addition to hours in the major, but do not restate these requirements.
- State course requirements in the major and any allied areas, giving number of hours and specific courses; specify electives or elective areas and give numbers of hours and courses in elective pools or categories; identify any other course requirements.
- State any other requirements (required GPA, internship, exit exam, project, thesis, etc.).
- Identify name and requirements for each concentration (if any).
- Specify whether a minor or other program component is allowed or required and provide details.
- State eight-semester plan requirements

For minors, state requirements in terms of hours, required courses, electives, etc.

For graduate program/units, include elements (as needed) parallel to those listed for undergraduate programs above.

For Law School program/units, prepare text consistent with current catalog style.

For centers, prepare text consistent with current catalog style.

Degrees Conferred:

M.S., Ph.D. (KINS)

Areas of Concentration for the Master of Science Degree:

Adapted movement science, athletic training, and exercise science. Areas of specialization within the Exercise Science Concentration include biomechanics, exercise management, and exercise physiology.

Prerequisites to Degree Program: For acceptance to the master's degree programs the program area requires, in addition to the general requirements for admission to the Graduate School, an undergraduate degree in kinesiology or in a related field and the following admission standards: an overall undergraduate GPA of 3.00 or if the overall undergraduate GPA is between 2.70 and 2.99, the student must have a 3.00 GPA on the last 60 hours of undergraduate course work (excluding student teaching), or a GRE score of 1000 on the verbal and quantitative parts of the general test.

Requirements for the Master of Science Degree: Candidates for the M.S. degree in kinesiology with a concentration in either adapted movement science or exercise science must complete 27 semester hours of graduate work and a thesis or 33 semester hours without a thesis. The athletic training concentration requires 51 semester hours of graduate work and an independent research project or thesis. A graduate GPA of 3.0 or better is required for graduation. In addition, all degree candidates must successfully complete a written comprehensive examination.

Athletic Training Concentration: Presently, the athletic training education program has been granted candidacy status by the Joint Review Committee on Athletic Training Education and is seeking accreditation by the Commission on Accreditation of Allied Health Education Programs (CAAHEP). Candidacy status does not guarantee the program will receive accreditation status. In addition, candidacy and submission of the self-study do not guarantee accreditation. Students may have to make alternate plans in order to be eligible to sit for the NATABOC examination if accreditation is not achieved. See the Program Director for options. The student is offered the opportunity to interact with high quality researchers/teachers in the field of exercise science throughout the two and half years of course work, clinical rotations, and the research thesis, project or case study. Employment opportunities for graduates include serving as health care professionals for sports medicine clinics and hospitals. Other employment opportunities include professional teams as well as university, college, and secondary school athletic teams. This athletic training program is a pre-certification program in athletic training and is not intended for students who are already eligible to sit for the NATABOC examination. This is a full-time graduate program and requires considerable clinical experience as part of the requirements for graduation. This is a competitive concentration that requires admission to the HKRD department and the Graduate Athletic Training Education Program.

Deficiency/Prerequisite Courses for Admission to the Athletic Training Concentration: Students desiring admission to the athletic training education program must complete the following deficiency/prerequisite courses prior to admission: HESC 1213 Nutrition in Health, HLSC 1002 Wellness Concepts, KINS 2393 Prevention and Care of Athletic Injuries, KINS 3153 Exercise Physiology, KINS 3353 Mechanics of Human Movement, BIOL 2213/2211L Human Physiology and Lab, BIOL 2443/2441L Anatomy and Lab. If the above courses were obtained at a college/university other than the University of Arkansas, course syllabi/outlines for courses that are requested to meet the requirements must be submitted to the Program Director of Athletic Training Education for approval. It is imperative that students have the equivalent of the above undergraduate deficiencies/prerequisites to satisfy the competencies set forth by

the National Athletic Trainers' Association Board of Certification. Students will be assigned to complete the above deficiency/prerequisite courses if no evidence of the above courses is presented.

Students who desire consideration for admission to the athletic training education program must submit the following information:

- 1) current CPR/First Aid Certification; 2) each student must provide evidence of a preprogram physical examination based on the University of Arkansas athletic training education program's technical standards by a board certified physician; 3) evidence of immunizations (mumps, measles, rubella, tetanus, and diphtheria); 4) Hepatitis B vaccination or waiver prior to beginning the clinical field base experience (the University of Arkansas Student Health Center offers the Hepatitis B vaccination for \$120.00 for all three shots); 5) a current tuberculosis screening test; 6) a minimum of 50 hours of observation under the direct supervision of a NATABOC certified athletic trainer; 7) three professional letters of recommendation; 8) completion of the University of Arkansas Graduate School Application (because of national accreditation standards/guidelines, admission into the athletic training education program is selective, and therefore, admission to the Graduate School of the University of Arkansas does not guarantee admission into the Athletic Training Education Program); 9) completion of Athletic Training Education Program Application (see athletic training Web site <http://uark.edu/depts/atepweb/>); 10) an official copy of all transcripts; and 11) all prospective students must satisfy required athletic training technical standards that are listed below.

Athletic Training Education Technical Standards: Because the Master of Science degree in Kinesiology with a concentration in Athletic Training and NATABOC certification signifies that the holder is a clinician prepared for entry into the practice of athletic training within a variety of employment and education settings, it follows that graduates must have the knowledge and skills to function in a broad variety of clinical situations and to render a wide spectrum of patient care. Therefore, the students must meet technical standards before being admitted to the Athletic Training Education Program. The technical standards set forth by the Athletic Training Educational Program establish the essential qualities considered necessary for students admitted to this program to achieve the knowledge, skills, and competencies of an entry-level athletic trainer, as well as meet the expectations of the program's accrediting agency (Commission on Accreditation of Allied Health Education Programs (CAA-HEP)). Applicants who may not meet these technical standards are encouraged to contact the Program Director of Athletic Training Education, 308H HPER Building, University of Arkansas. The following are the technical standards:

1. Candidates must be able to actively learn from observations, demonstrations, and experiments in the basic sciences.
2. Candidates must be able to learn to analyze, synthesize, solve problems, and reach assessment and therapeutic judgments distinguished from the norm.
3. Candidates must have sufficient sensory function and coordination to perform appropriate physical examinations using acceptable techniques.
4. Candidates must be able to relate effectively to athletes and the physically active and to establish sensitive, professional relationships with them.
5. Candidates are expected to be able to communicate the results of the assessment to the injured or ill exerciser, to responsible officials, to parents or guardians, and to colleagues with accuracy, clarity, and efficiency.
6. Candidates are expected to learn and perform routine prevention, assessment, emergency care, and therapeutic procedures.
7. Candidates are expected to be able to display good judgment in the assessment and treatment of injured or ill athletes and physically active individuals.
8. Candidates must be able to learn to respond with precise, quick, and appropriate action in emergency situations.
9. Candidates are expected to be able to accept criticism and respond by appropriate modification of behavior.
10. Candidates are expected to possess the perseverance, diligence, and consistency to complete the athletic training degree curriculum

as outlined and sequenced, to attempt NATABOC certification within the year of program completion, and to enter the practice of athletic training.

Prospective students are required to consult the athletic training

Web site: <http://www.uark.edu/depts/atepweb/> for information concerning

application procedures and specific policies and procedures

of the athletic training education program. Following the deadline

for application acceptance, the athletic training selection committee,

which is comprised of the three athletic training faculty, an exercise

science faculty member, HKRD graduate coordinator, and the head

athletic trainers from both Men's and Women's Athletics, will evaluate and rate each applicant. This rating is determined by a 5 point

Likert scale and written verbal comments in the areas of GPA, work

experience, letters of recommendation, and writing ability (essay

requirement). Once a determination has been rendered concerning

the applicant's desire for admission, a formal letter noting acceptance,

denial, or placement on a wait-list will be sent to the applicant.

The University of Arkansas Graduate School transfer of credit policy

will apply if a student desires to transfer credit hours from another

institution into the athletic training education program (see transfer

credit policy for the Master of Science Degree Program located in

the Graduate Catalog).

In addition, all degree candidates must successfully complete a written comprehensive examination.

The Master of Athletic Training:

The student is offered the opportunity to interact with high quality researchers/teachers in the field of exercise science throughout the two and half years of course work, clinical rotations, and the research thesis, project or case study. Employment opportunities for graduates include serving as health care professionals for sports medicine clinics and hospitals. Other employment opportunities include professional teams as well as university, college, and secondary school athletic teams. This athletic training program is a pre-certification program in athletic training and is not intended for students who are already eligible to sit for the NATABOC examination. This is a full-time graduate program and requires considerable clinical experience as part of the requirements for graduation. This is a competitive concentration that requires admission to the HKRD department and the Graduate Athletic Training Education Program.

Deficiency/Prerequisite Courses for Admission to the Master of Athletic Training:

Students desiring admission to the athletic training education program must complete the following deficiency/prerequisite courses prior to admission: HESC 1213 Nutrition in Health, HLSC 1002 Wellness Concepts, KINS 2393 Prevention and Care of Athletic Injuries, KINS 3153 Exercise Physiology, KINS 3353 Mechanics of Human Movement, BIOL 2213/2211L Human Physiology and Lab, BIOL 2443/2441L Anatomy and Lab. If the above courses were obtained at a college/university other than the University of Arkansas, course syllabi/outlines for courses that are requested to meet the requirements must be submitted to the Program Director of Athletic Training Education for approval. It is imperative that students have the equivalent of the above undergraduate deficiencies/prerequisites to satisfy the competencies set forth by the National Athletic Trainers' Association Board of Certification. Students will be assigned to complete the above deficiency/prerequisite courses if no evidence of the above courses is presented.

Students who desire consideration for admission to the athletic training education program must submit the following information:

- 1) current CPR/First Aid Certification;
- 2) each student must provide evidence of a preprogram physical examination based on the University of Arkansas athletic training education program's technical standards by a board certified physician;
- 3) evidence of immunizations (mumps, measles, rubella, tetanus, and diphtheria);
- 4) Hepatitis B vaccination or waiver prior to beginning the clinical field base experience (the University of Arkansas Student Health

Center offers the Hepatitis B vaccination for \$120.00 for all three shots); 5) a current tuberculosis screening test; 6) a minimum of 50 hours of observation under the direct supervision of a NATABOC certified athletic trainer; 7) three professional letters of recommendation; 8) completion of the University of Arkansas Graduate School Application (because of national accreditation standards/guidelines, admission into the athletic training education program is selective, and therefore, admission to the Graduate School of the University of Arkansas does not guarantee admission into the Athletic Training Education Program); 9) completion of Athletic Training Education Program Application (see athletic training Web site <http://uark.edu/depts/atepweb/>); 10) an official copy of all transcripts; and 11) all prospective students must satisfy required athletic training technical standards that are listed below.

Athletic Training Education Technical Standards: Because the Master of Science degree in Kinesiology with a concentration in Athletic Training and NATABOC certification signifies that the holder is a clinician prepared for entry into the practice of athletic training within a variety of employment and education settings, it follows that graduates must have the knowledge and skills to function in a broad variety of clinical situations and to render a wide spectrum of patient care. Therefore, the students must meet technical standards before being admitted to the Athletic Training Education Program. The technical standards set forth by the Athletic Training Educational Program establish the essential qualities considered necessary for students admitted to this program to achieve the knowledge, skills, and competencies of an entry-level athletic trainer, as well as meet the expectations of the program's accrediting agency (Commission on Accreditation of Allied Health Education Programs (CAA-HEP)). Applicants who may not meet these technical standards are encouraged to contact the Program Director of Athletic Training Education, 308H HPER Building, University of Arkansas. The following are the technical standards:

1. Candidates must be able to actively learn from observations, demonstrations, and experiments in the basic sciences.
2. Candidates must be able to learn to analyze, synthesize, solve problems, and reach assessment and therapeutic judgments distinguished from the norm.
3. Candidates must have sufficient sensory function and coordination to perform appropriate physical examinations using acceptable techniques.
4. Candidates must be able to relate effectively to athletes and the physically active and to establish sensitive, professional relationships with them.
5. Candidates are expected to be able to communicate the results of the assessment to the injured or ill exerciser, to responsible officials, to parents or guardians, and to colleagues with accuracy, clarity, and efficiency.
6. Candidates are expected to learn and perform routine prevention, assessment, emergency care, and therapeutic procedures.
7. Candidates are expected to be able to display good judgment in the assessment and treatment of injured or ill athletes and physically active individuals.
8. Candidates must be able to learn to respond with precise, quick, and appropriate action in emergency situations.
9. Candidates are expected to be able to accept criticism and respond by appropriate modification of behavior.
10. Candidates are expected to possess the perseverance, diligence, and consistency to complete the athletic training degree curriculum as outlined and sequenced, to attempt NATABOC certification within the year of program completion, and to enter the practice of athletic training.

Prospective students are required to consult the athletic training Web site: <http://www.uark.edu/depts/atepweb/> for information concerning application procedures and specific policies and procedures of the athletic training education program. Following the deadline for application acceptance, the athletic training selection committee, which is comprised of the three athletic training faculty, an exercise science faculty member, HKRD graduate coordinator, and the head athletic trainers from both Men's and Women's Athletics, will evaluate and rate each applicant. This rating is determined by a 5 point

Likert scale and written verbal comments in the areas of GPA, work experience, letters of recommendation, and writing ability (essay requirement). Once a determination has been rendered concerning the applicant's desire for admission, a formal letter noting acceptance, denial, or placement on a wait-list will be sent to the applicant.

The University of Arkansas Graduate School transfer of credit policy will apply if a student desires to transfer credit hours from another institution into the athletic training education program (see transfer credit policy for the Master of Science Degree Program located in the Graduate Catalog).

PROPOSAL – 1
NEW CERTIFICATE OR DEGREE PROGRAM

1. PROPOSED PROGRAM TITLE

Master of Athletic Training

2. CIP CODE REQUESTED

51.0913

3. CONTACT PERSON

Name: Dr. Nancy Talburt, Vice Provost for Academic Affairs

Name of Institution: University of Arkansas

Address: ADMN 422, University of Arkansas, Fayetteville, AR 72701

E-mail Address: netal@uark.edu

Phone Number; 479/575-2151

4. PROPOSED STARTING DATE

Summer 2010

5. PROGRAM SUMMARY

Provide a general description of the proposed program. Include overview of any curriculum additions or modifications; program costs; faculty resources, library resources, facilities and equipment; purpose of the program; and any information that will serve as introduction to the program.

List existing degree programs that support the proposed program.

The current concentration in Athletic Training within the M.S. Kinesiology degree program will change to a Master of Athletic Training, preparing athletic trainers for high school, college, and professional sports organizations. The student has been and will be offered the opportunity to interact with high quality researchers/teachers in the field of exercise science throughout the two and half years of course work, clinical rotations, and the research thesis, project or case study. Employment opportunities for graduates include serving as health care professionals for sports medicine clinics and hospitals. Other employment opportunities include professional teams as well as university, college, and secondary school athletic teams. This athletic training program is a pre-certification program in athletic training and is not intended for students who are already eligible to sit for the NATABOC examination. This is a full-time graduate program and requires considerable clinical experience as part of the requirements for graduation. Because this program has already existed as a concentration within another degree, we anticipate no additional program costs beyond what is presently committed.

6. NEED FOR THE PROGRAM

Provide survey data (number not percentage) on student interest (number of students planning to enroll), job availability, corporate demands and employment/wage projections. Focus mostly on state

needs and less on regional and national needs, unless applicable to the program.

Indicate if employer tuition assistance is provided or other enrollment incentives.

The reasons for the proposed action are 1) The Commission on Accreditation of Athletic Training (CAATE) requires that all accredited programs be either degree programs or majors e.g. Master of Athletic Training or MS in Athletic Training instead of a concentration, 2) currently within the United States there are 18 entry level graduate programs in the area of Athletic Training and the University of Arkansas program is the only one which is not a degree program, and 3) the number of students enrolled in the Athletic Training concentration during the past three years has ranged from 24 - 30 and the number of program graduates has been 12, 14, and 13 respectively. These numbers indicate that the program is highly viable and without accreditation the program would cease to exist.

There are no enrollment incentives.

7. CURRICULUM OUTLINE

Provide curriculum outline by semester

Give total number of semester credit hours required for the program: Students will be required to complete between 51 and 54 hours, depending on deficiencies

Identify new courses (provide course descriptions): No new courses are anticipated

Identify required general education courses, core courses and major courses:

Please see below

Identify courses currently offered via distance technology: Please see below.

State program admission requirements: please see below

Describe specified learning outcomes and course examination procedures: Please see below.

Include a copy of the course evaluation to be completed by the student: Attached.

Admission Requirements:

Students desiring admission to the athletic training education program must complete the following deficiency/prerequisite courses prior to admission: HESC 1213 Nutrition in Health, HLSC 1002 Wellness Concepts, KINS 2393 Prevention and Care of Athletic Injuries, KINS 3153 Exercise Physiology, KINS 3353 Mechanics of Human Movement, BIOL 2213/2211L Human Physiology and Lab, BIOL 2443/2441L Anatomy and Lab. If the above courses were obtained at a college or university other than the University of Arkansas, course syllabi/outlines for courses that are requested to meet the requirements must be submitted to the Program Director of Athletic Training Education for approval. It is imperative that students have the equivalent of the above undergraduate deficiencies or prerequisites to satisfy the competencies set forth by the National Athletic Trainers' Association Board of Certification. Students will be assigned to complete the above deficiency/prerequisite courses if no evidence of the above courses is presented.

Students who desire consideration for admission to the athletic training education program must submit the following information: 1) current CPR/First Aid Certification; 2) each student must provide evidence of a preprogram physical examination based on the University of Arkansas athletic training education program's technical standards by a board certified physician; 3) evidence of immunizations (mumps, measles, rubella, tetanus, and diphtheria); 4) Hepatitis B vaccination or waiver prior to beginning the clinical field base experience (the University of Arkansas Student Health Center offers the Hepatitis B vaccination for \$120.00 for all three

shots); 5) a current tuberculosis screening test; 6) a minimum of 50 hours of observation under the direct supervision of a NATABOC certified athletic trainer; 7) three professional letters of recommendation; 8) completion of the University of Arkansas Graduate School Application (because of national accreditation standards and guidelines, admission into the athletic training education program is selective, and therefore, admission to the Graduate School of the University of Arkansas does not guarantee admission into the Athletic Training Education Program); 9) completion of Athletic Training Education Program Application (see athletic training Web site <http://uark.edu/depts/atepweb/>); 10) an official copy of all transcripts; and 11) all prospective students must satisfy required athletic training technical standards.

Prospective students are required to consult the athletic training Web site: <http://www.uark.edu/depts/atepweb/> for information concerning application procedures and specific policies and procedures of the athletic training education program. Following the deadline for application acceptance, the athletic training selection committee, which comprises the three athletic training faculty, an exercise science faculty member, the HKRD graduate coordinator, and the head athletic trainers from both Men's and Women's Athletics, will evaluate and rate each applicant. This rating is determined by a 5-point Likert scale and written verbal comments in the areas of GPA, work experience, letters of recommendation, and writing ability (essay requirement). Once a determination has been rendered concerning the applicant's desire for admission, a formal letter noting acceptance, denial, or placement on a wait-list will be sent to the applicant. The University of Arkansas Graduate School transfer of credit policy will apply if a student desires to transfer credit hours from another institution into the athletic training education program (see transfer credit policy for the Master of Science Degree Program located in the Graduate Catalog).

The semester in which the courses are offered and those that are offered by distance are indicated in the curriculum list below.

8. **FACULTY**

List the names and credentials of all faculty teaching courses in the proposed program. **(For associate and above: A minimum of one full-time faculty member with appropriate credentials is required.)**

Jeff Bonacci, D.A., Clinical Assistant Professor, Full-time Director
Gretchen D. Oliver, Ph.D., Full-time Assistant Professor, Clinical Coordinator
Cathy Lirgg, Ph.D., Associate Professor
George Denny, Ph.D. Associate Professor
Ro DiBrezza, Ph.D., University Professor
Inza Fort, Ph.D., Professor

Total number of faculty required (number of existing faculty, number of new faculty). For new faculty provide the expected credentials/experience and expected hire date.

Six existing faculty, listed above, teach the courses in the Athletic Training curriculum. No new faculty are needed.

For proposed graduate programs provide the curriculum vita for faculty teaching in the program, and the expected credentials for new faculty and expected hire date.

No new hires are expected.

9. **DESCRIPTION OF RESOURCES**

Current library resources in the field
Current instructional facilities including classrooms, instructional equipment and technology, laboratories (if applicable)
New resources required, including costs and acquisition plan

The program is already being offered as a concentration. Current library resources, instructional facilities, etc. are sufficient. No new resources are required.

10. **NEW PROGRAM COSTS – Expenditures for the first 3 years of program operation**

NA

New administrative costs
Number of new faculty (full-time and part-time) and costs
New library resources and costs

New/renovated facilities and costs
New instructional equipment and costs
Distance delivery costs (if applicable)
Other new costs (graduate assistants, secretarial support, supplies, faculty development, faculty/students research, etc.)

No new costs (Explain)

The program is already being offered as a concentration. We anticipate no additional costs as the number of students in the program will not increase.

11. SOURCES OF FUNDING – Income for the first 3 years of program operation

Reallocation from which department, program, etc.
Tuition and fees (projected number of students multiplied by tuition/fees)
State revenues (projected number of students multiplied by state general revenues)

Other (grants, employers, special tuition rates, mandatory technology fees, program specific fees, etc.)

Current and anticipated departmental/college funding will be sufficient.

12. ORGANIZATIONAL CHART REFLECTING NEW PROGRAM

Proposed program will be housed in (department/college): College of Education and Health Professions

College of Education and Health Professions

Department of Health Sciences, Kinesiology, Recreation and Dance

Master of Athletic Training

13. SPECIALIZED REQUIREMENTS

Specialized accreditation requirements for program. The Commission on Accreditation for Athletic training Education (CAATE), Licensure/certification requirements for student entry into the field are as follows:

Athletic Training Education Technical Standards: Because the Master of Athletic Training and NATABOC certification signifies that the holder is a clinician prepared for entry into the practice of athletic training within a variety of employment and education settings, it follows that graduates must have the knowledge and skills to function in a broad variety of clinical situations and to render a wide spectrum of patient care. Therefore, the

students must meet technical standards before being admitted to the Athletic Training Education Program. The technical standards set forth by the Athletic Training Educational Program establish the essential qualities considered necessary for students admitted to this program to achieve the knowledge, skills, and competencies of an entry-level athletic trainer, as well as meet the expectations of the program's accrediting agency, the Commission on Accreditation for Athletic Training Education (CAATE). Applicants who may not meet these technical standards are encouraged to contact the Program Director of Athletic Training Education, 303 HPER Building, University of Arkansas.

The following are the technical standards:

1. Candidates must be able to actively learn from observations, demonstrations, and experiments in the basic sciences.
2. Candidates must be able to learn to analyze, synthesize, solve problems, and reach assessment and therapeutic judgments distinguished from the norm.
3. Candidates must have sufficient sensory function and coordination to perform appropriate physical examinations using acceptable techniques.
4. Candidates must be able to relate effectively to athletes and the physically active and to establish sensitive, professional relationships with them.
5. Candidates are expected to be able to communicate the results of the assessment to the injured or ill exerciser, to responsible officials, to parents or guardians, and to colleagues with accuracy, clarity, and efficiency.
6. Candidates are expected to learn and perform routine prevention, assessment, emergency care, and therapeutic procedures.
7. Candidates are expected to be able to display good judgment in the assessment and treatment of injured or ill athletes and physically active individuals.
8. Candidates must be able to learn to respond with precise, quick, and appropriate action in emergency situations.
9. Candidates are expected to be able to accept criticism and respond by appropriate modification of behavior.
10. Candidates are expected to possess the perseverance, diligence, and consistency to complete the athletic training degree curriculum as outlined and sequenced, to attempt NATABOC certification within the year of program completion, and to enter the practice of athletic training.

Provide documentation of Agency/Board approvals (education, nursing--initial approval required, health-professions, counseling, etc.)

14. BOARD OF TRUSTEES APPROVAL

Provide the date that the Board approved the proposed program

15. SIMILAR PROGRAMS

List institutions offering program

Proposed master's program – list institutions in Arkansas and region

There are no entry level master's degrees programs in AR. There are a few entry level undergraduate Athletic Training programs in Arkansas. The following schools have accredited undergraduate Athletic Training programs in Arkansas:

1. UCA
2. ASU
3. Ouachita Baptist
4. Henderson State
5. Harding University
6. Southern Arkansas University

Why is proposed program needed if offered at other institutions in Arkansas or region?

There are only 18 current entry level athletic training master's degrees in the US. Texas Tech is the one nearest to the University of Arkansas.

Provide a copy of the written notification to other institutions in the area of the proposed program and their responses.

16. DESEGREGATION

State the total number of students, number of black students, and number of other minority students enrolled in related degree programs (if applicable)

In Fall 2008, the MS in Kinesiology had the following students enrolled:

	Male	Female
Asian or Pacific Islander	1	3
African Americans	1	1
Hispanic	0	0
American Indian or Native American	1	0
Caucasian	13	25
Non-Resident Alien	4	1
Unknown	0	0
Subtotals	20	30
Total	50	

17. INSTITUTIONAL AGREEMENTS/MEMORANDUM OF UNDERSTANDING (MOU)

If the courses or academic support services will be provided by other institutions or organizations, include a copy of the signed MOU that outlines the responsibilities of each party and the effective dates of the agreement.

Insert here a statement of the exact changes to be made: Request to delete the current concentration in Athletic Training within the M.S. Kinesiology degree program. A separate degree (Master of Athletic Training) is being proposed to replace this concentration. (The KINSMS is NOT to be deleted, just the Athletic Training Concentration.)

Check if either of these boxes apply and provide the necessary signature:

- Program change proposal adds courses offered by another academic college, and that college dean's office has been notified. The signature of the dean of that academic college is required here: _____
- Program change proposal deletes courses offered by another academic college, and that college dean's office has been notified. The signature of the dean of that academic college is required here: _____

Check all the boxes that apply and complete the required sections of the form:

- Change of Name and Code (Complete only sections I, II, V and VII.)
- Change Course Requirements: (Complete all sections of the form except "Proposed Name" in II, section III, and section IV.)
- Change Delivery Site/Method (Complete all sections of the form except "Proposed Name" in II, section III, and section IV.)
- Change Total Hours (Complete all sections of the form except "Proposed Name" in II, section III, and section IV.)
- Change in Program Policies

SECTION VI: Justification

Justify this change and state its likely effect on any other degree program (including those outside the school or college). Identify any program or program components (other than courses) to be eliminated if this program is implemented. (Program and course change forms must also be submitted for such related changes.)

The decision to request the above stated change was based upon the following: The Commission on Accreditation of Athletic Training (CAATE) requires that all accredited programs be either degree programs or majors e.g. Master of Athletic Training or MS in Athletic Training instead of a concentration. Therefore, with the approval of the new degree, Master of Athletic Training, the current concentration needs to be eliminated. There will be no curricular changes as a result of this.

SECTION VII: Catalog Text and Format

In the box below, insert the current catalog text which is to be changed, with changes highlighted with the color yellow. Include all proposed changes identified in Section V. Only changes explicitly stated in Section V will be considered for approval by the University Course and Programs Committee, the Graduate Council and the Faculty Senate. If you are proposing a new program, give proposed text with all of the elements listed below. If you are proposing modified text, include these elements as appropriate.

Include the following elements, in order, in the catalog text for proposed undergraduate program(s) or program changes:

- State complete major/program name
- Briefly define or describe the major/program or discipline.
- Identify typical career goals or paths for graduates. (Optional)
- State admission requirements (if any) for entry or entry into upper/advanced level of major/program.
- Identify location in catalog of university, college/school, and department/program requirements which the student must meet in addition to hours in the major, but do not restate these requirements.
- State course requirements in the major and any allied areas, giving number of hours and specific courses; specify electives or elective areas and give numbers of hours and courses in elective pools or categories; identify any other course requirements.
- State any other requirements (required GPA, internship, exit exam, project, thesis, etc.).
- Identify name and requirements for each concentration (if any).
- Specify whether a minor or other program component is allowed or required and provide details.
- State eight-semester plan requirements

For minors, state requirements in terms of hours, required courses, electives, etc.

For graduate program/units, include elements (as needed) parallel to those listed for undergraduate programs above.

For Law School program/units, prepare text consistent with current catalog style.

For centers, prepare text consistent with current catalog style.

Degrees Conferred:

M.S., Ph.D. (KINS)

Areas of Concentration for the Master of Science Degree:

Adapted movement science, athletic training, and exercise science. Areas of specialization within the Exercise Science Concentration include biomechanics, exercise management, and exercise physiology.

Prerequisites to Degree Program: For acceptance to the master's degree programs the program area requires, in addition to the general requirements for admission to the Graduate School, an undergraduate degree in kinesiology or in a related field and the following admission standards: an overall undergraduate GPA of 3.00 or if the overall undergraduate GPA is between 2.70 and 2.99, the student must have a 3.00 GPA on the last 60 hours of undergraduate course work (excluding student teaching), or a GRE score of 1000 on the verbal and quantitative parts of the general test.

Requirements for the Master of Science Degree: Candidates for the M.S. degree in kinesiology with a concentration in either adapted movement science or exercise science must complete 27 semester hours of graduate work and a thesis or 33 semester hours without a thesis. The athletic training concentration requires 51 semester hours of graduate work and an independent research project or thesis. A graduate GPA of 3.0 or better is required for graduation. In addition, all degree candidates must successfully complete a written comprehensive examination.

Athletic Training Concentration: Presently, the athletic training education program has been granted candidacy status by the Joint Review Committee on Athletic Training Education and is seeking accreditation by the Commission on Accreditation of Allied Health Education Programs (CAAHEP). Candidacy status does not guarantee the program will receive accreditation status. In addition, candidacy and submission of the self-study do not guarantee accreditation. Students may have to make alternate plans in order to be eligible to sit for the NATABOC examination if accreditation is not achieved. See the Program Director for options. The student is offered the opportunity to interact with high quality researchers/teachers in the field of exercise science throughout the two and half years of course work, clinical rotations, and the research thesis, project or case study. Employment opportunities for graduates include serving as health care professionals for sports medicine clinics and hospitals. Other employment opportunities include professional teams as well as university, college, and secondary school athletic teams. This athletic training program is a pre-certification program in athletic training and is not intended for students who are already eligible to sit for the NATABOC examination. This is a full-time graduate program and requires considerable clinical experience as part of the requirements for graduation. This is a competitive concentration that requires admission to the HKRD department and the Graduate Athletic Training Education Program.

Deficiency/Prerequisite Courses for Admission to the Athletic Training Concentration: Students desiring admission to the athletic training education program must complete the following deficiency/prerequisite courses prior to admission: HESC 1213 Nutrition in Health, HLSC 1002 Wellness Concepts, KINS 2393 Prevention and Care of Athletic Injuries, KINS 3153 Exercise Physiology, KINS 3353 Mechanics of Human Movement, BIOL 2213/2211L Human Physiology and Lab, BIOL 2443/2441L Anatomy and Lab. If the above courses were obtained at a college/university other than the University of Arkansas, course syllabi/outlines for courses that are requested to meet the requirements must be submitted to the Program

Director of Athletic Training Education for approval. It is imperative that students have the equivalent of the above undergraduate deficiencies/prerequisites to satisfy the competencies set forth by the National Athletic Trainers' Association Board of Certification. Students will be assigned to complete the above deficiency/prerequisite courses if no evidence of the above courses is presented.

Students who desire consideration for admission to the athletic training education program must submit the following information:

- 1) current CPR/First Aid Certification;
- 2) each student must provide evidence of a preprogram physical examination based on the University of Arkansas athletic training education program's technical standards by a board certified physician;
- 3) evidence of immunizations (mumps, measles, rubella, tetanus, and diphtheria);
- 4) Hepatitis B vaccination or waiver prior to beginning the clinical field base experience (the University of Arkansas Student Health Center offers the Hepatitis B vaccination for \$120.00 for all three shots);
- 5) a current tuberculosis screening test;
- 6) a minimum of 50 hours of observation under the direct supervision of a NATABOC certified athletic trainer;
- 7) three professional letters of recommendation;
- 8) completion of the University of Arkansas Graduate School Application (because of national accreditation standards/guidelines, admission into the athletic training education program is selective, and therefore, admission to the Graduate School of the University of Arkansas does not guarantee admission into the Athletic Training Education Program);
- 9) completion of Athletic Training Education Program Application (see athletic training Web site <http://uark.edu/depts/atepweb/>);
- 10) an official copy of all transcripts; and
- 11) all prospective students must satisfy required athletic training technical standards that are listed below.

Athletic Training Education Technical Standards: Because the Master of Science degree in Kinesiology with a concentration in Athletic Training and NATABOC certification signifies that the holder is a clinician prepared for entry into the practice of athletic training within a variety of employment and education settings, it follows that graduates must have the knowledge and skills to function in a broad variety of clinical situations and to render a wide spectrum of patient care. Therefore, the students must meet technical standards before being admitted to the Athletic Training Education Program. The technical standards set forth by the Athletic Training Educational Program establish the essential qualities considered necessary for students admitted to this program to achieve the knowledge, skills, and competencies of an entry-level athletic trainer, as well as meet the expectations of the program's accrediting agency (Commission on Accreditation of Allied Health Education Programs (CAA-HEP)). Applicants who may not meet these technical standards are encouraged to contact the Program Director of Athletic Training Education, 308H HPER Building, University of Arkansas. The following are the technical standards:

1. Candidates must be able to actively learn from observations, demonstrations, and experiments in the basic sciences.
2. Candidates must be able to learn to analyze, synthesize, solve problems, and reach assessment and therapeutic judgments distinguished from the norm.
3. Candidates must have sufficient sensory function and coordination to perform appropriate physical examinations using acceptable techniques.
4. Candidates must be able to relate effectively to athletes and the physically active and to establish sensitive, professional relationships with them.
5. Candidates are expected to be able to communicate the results of the assessment to the injured or ill exerciser, to responsible officials, to parents or guardians, and to colleagues with accuracy, clarity, and efficiency.
6. Candidates are expected to learn and perform routine prevention, assessment, emergency care, and therapeutic procedures.
7. Candidates are expected to be able to display good judgment in the assessment and treatment of injured or ill athletes and physically active individuals.
8. Candidates must be able to learn to respond with precise, quick, and appropriate action in emergency situations.
9. Candidates are expected to be able to accept criticism and

respond by appropriate modification of behavior.

10. Candidates are expected to possess the perseverance, diligence, and consistency to complete the athletic training degree curriculum as outlined and sequenced, to attempt NATABOC certification within the year of program completion, and to enter the practice of athletic training.

Prospective students are required to consult the athletic training

Web site: <http://www.uark.edu/depts/atepweb/> for information concerning

application procedures and specific policies and procedures

of the athletic training education program. Following the deadline

for application acceptance, the athletic training selection committee,

which is comprised of the three athletic training faculty, an exercise

science faculty member, HKRD graduate coordinator, and the head

athletic trainers from both Men's and Women's Athletics, will evaluate and rate each applicant. This rating is determined by a 5 point

Likert scale and written verbal comments in the areas of GPA, work

experience, letters of recommendation, and writing ability (essay

requirement). Once a determination has been rendered concerning

the applicant's desire for admission, a formal letter noting acceptance,

denial, or placement on a wait-list will be sent to the applicant.

The University of Arkansas Graduate School transfer of credit policy

will apply if a student desires to transfer credit hours from another

institution into the athletic training education program (see transfer

credit policy for the Master of Science Degree Program located in

the Graduate Catalog).

7. Reason for deletion: **The decision to delete the concentration was based upon the following: The Commission on Accreditation of Athletic Training (CAATE) requires that all accredited programs be either degree programs or majors e.g. Master of Athletic Training or MS in Athletic Training instead of a concentration. (A proposal to establish a new Master of Athletic Training degree is being submitted.)**
8. Number of students still enrolled in program: **23**
9. Expected graduation date of last student: **May 2010**
10. Name of courses which will be deleted as a result of this action: **None**
11. How will students in the deleted program be accommodated: **All students in the current Athletic Training concentration will be completed by May 2010.**
12. Are funds available for reallocation? **None needed. All resources currently available for the concentration will be available for the degree.**

Justify this change and state its likely effect on any other degree program (including those outside the school or college). Identify any program or program components (other than courses) to be eliminated if this program is implemented. (Program and course change forms must also be submitted for such related changes.)

ARTS 1003 needs to be removed from the Fulbright core because it does not meet the criterion of being rooted in the disciplines recognized by the National Endowment for the Humanities.

SECTION VII: Catalog Text and Format

In the box below, insert the current catalog text which is to be changed, with changes highlighted with the color yellow. Include all proposed changes identified in Section V. Only changes explicitly stated in Section V will be considered for approval by the University Course and Programs Committee, the Graduate Council and the Faculty Senate. If you are proposing a new program, give proposed text with all of the elements listed below. If you are proposing modified text, include these elements as appropriate.

Include the following elements, in order, in the catalog text for proposed undergraduate program(s) or program changes:

- State complete major/program name
- Briefly define or describe the major/program or discipline.
- Identify typical career goals or paths for graduates. (Optional)
- State admission requirements (if any) for entry or entry into upper/advanced level of major/program.
- Identify location in catalog of university, college/school, and department/program requirements which the student must meet in addition to hours in the major, but do not restate these requirements.
- State course requirements in the major and any allied areas, giving number of hours and specific courses; specify electives or elective areas and give numbers of hours and courses in elective pools or categories; identify any other course requirements.
- State any other requirements (required GPA, internship, exit exam, project, thesis, etc.).
- Identify name and requirements for each concentration (if any).
- Specify whether a minor or other program component is allowed or required and provide details.
- State eight-semester plan requirements

For minors, state requirements in terms of hours, required courses, electives, etc.

For graduate program/units, include elements (as needed) parallel to those listed for undergraduate programs above.

For Law School program/units, prepare text consistent with current catalog style.

For centers, prepare text consistent with current catalog style.

- Change Delivery Site/Method (Complete all sections of the form except "Proposed Name" in II, section III, and section IV.)
- Change Total Hours (Complete all sections of the form except "Proposed Name" in II, section III, and section IV.)
- Change in Program Policies

SECTION VI: Justification

Justify this change and state its likely effect on any other degree program (including those outside the school or college). Identify any program or program components (other than courses) to be eliminated if this program is implemented. (Program and course change forms must also be submitted for such related changes.)

ARTS 1003 needs to be removed from the state core because it does not meet the criterion of being rooted in the disciplines recognized by the National Endowment for the Humanities.

SECTION VII: Catalog Text and Format

In the box below, insert the current catalog text which is to be changed, with changes highlighted with the color yellow. Include all proposed changes identified in Section V. Only changes explicitly stated in Section V will be considered for approval by the University Course and Programs Committee, the Graduate Council and the Faculty Senate. If you are proposing a new program, give proposed text with all of the elements listed below. If you are proposing modified text, include these elements as appropriate.

Include the following elements, in order, in the catalog text for proposed undergraduate program(s) or program changes:

- State complete major/program name
- Briefly define or describe the major/program or discipline.
- Identify typical career goals or paths for graduates. (Optional)
- State admission requirements (if any) for entry or entry into upper/advanced level of major/program.
- Identify location in catalog of university, college/school, and department/program requirements which the student must meet in addition to hours in the major, but do not restate these requirements.
- State course requirements in the major and any allied areas, giving number of hours and specific courses; specify electives or elective areas and give numbers of hours and courses in elective pools or categories; identify any other course requirements.
- State any other requirements (required GPA, internship, exit exam, project, thesis, etc.).
- Identify name and requirements for each concentration (if any).
- Specify whether a minor or other program component is allowed or required and provide details.
- State eight-semester plan requirements

For minors, state requirements in terms of hours, required courses, electives, etc.

For graduate program/units, include elements (as needed) parallel to those listed for undergraduate programs above.

For Law School program/units, prepare text consistent with current catalog style.

For centers, prepare text consistent with current catalog style.

Justify this change and state its likely effect on any other degree program (including those outside the school or college). Identify any program or program components (other than courses) to be eliminated if this program is implemented. (Program and course change forms must also be submitted for such related changes.)

Enrollment in Russian Studies and actual degrees awarded to students pursuing a Russian Studies combined major are not high enough to meet AR Department of Higher Education minimum productivity requirements. Only 4 students have completed the requirements for a combined major in Russian Studies in the last 5 years, resulting in an annual 5-year average of less than 1 student per year. The enrollment patterns for the last few years have indicated between 5 - 8 students enrolled as Russian Studies combined majors, which are not large enough numbers to suggest any expected increases in the number of degrees awarded in this area, and in fact, suggest that the numbers might continue to dwindle. The College wishes to discontinue this unproductive program and focus resources elsewhere. Students interested in Russian affairs will be encouraged to pursue a combined major in European Studies, and will still be able to take courses in Russian language, history, and literature as part of that major.

SECTION VII: Catalog Text and Format

SECTION VI: Justification

Justify this change and state its likely effect on any other degree program (including those outside the school or college). Identify any program or program components (other than courses) to be eliminated if this program is implemented. (Program and course change forms must also be submitted for such related changes.)

Enrollment in Russian Studies and actual degrees awarded to students pursuing a Russian Studies combined major are not high enough to meet AR Department of Higher Education minimum productivity requirements. Only 4 students have completed the requirements for a combined major in Russian Studies in the last 5 years, resulting in an annual 5-year average of less than 1 student per year. The enrollment patterns for the last few years have indicated between 5 - 8 students enrolled as Russian Studies combined majors, which are not large enough numbers to suggest any expected increases in the number of degrees awarded in this area, and in fact, suggest that the numbers might continue to dwindle. The College wishes to discontinue this unproductive program and focus resources elsewhere. Students interested in Russian affairs will be encouraged to pursue a combined major in European Studies, and will still be able to take courses in Russian language, history, and literature as part of that major.

SECTION VII: Catalog Text and Format

In the box below, insert the current catalog text which is to be changed, with changes highlighted with the color yellow. Include all proposed changes identified in Section V. Only changes explicitly stated in Section V will be considered for approval by the University Course and Programs Committee, the Graduate Council and the Faculty Senate. If you are proposing a new program, give proposed text with all of the elements listed below. If you are proposing modified text, include these elements as appropriate.

Include the following elements, in order, in the catalog text for proposed undergraduate program(s) or program changes:

- State complete major/program name
- Briefly define or describe the major/program or discipline.
- Identify typical career goals or paths for graduates. (Optional)
- State admission requirements (if any) for entry or entry into upper/advanced level of major/program.
- Identify location in catalog of university, college/school, and department/program requirements which the student must meet in addition to hours in the major, but do not restate these requirements.
- State course requirements in the major and any allied areas, giving number of hours and specific courses; specify electives or elective areas and give numbers of hours and courses in elective pools or categories; identify any other course requirements.
- State any other requirements (required GPA, internship, exit exam, project, thesis, etc.).
- Identify name and requirements for each concentration (if any).
- Specify whether a minor or other program component is allowed or required and provide details.
- State eight-semester plan requirements

Identify any program or program components (other than courses) to be eliminated if this program is implemented. (Program and course change forms must also be submitted for such related changes.)

Advertising/Public Relations is in high demand at universities nationwide, including here in the Journalism Department at the University of Arkansas. Many programs have instituted "enrollment management" policies to maintain the quality of instruction. These include GPA requirements, limited enrollment policies, and/or a limit of one additional retake on a course where a specific grade is required.

Many require a minimum GPA to enter advertising/public relations and to qualify to take courses. These policies help programs remain competitive with other Ad/PR programs around the country by maintaining quality instruction, by not straining limited resources, and thus providing better preparation for students to work in the field. Some programs enroll students only on a "seats available" basis; students who meet entrance requirements are not automatically guaranteed acceptance into a program.

Major, highly-regarded benchmark universities or programs in the region and nationwide have instituted such requirements. For example:

At Louisiana State University, students with a 3.00 LSU GPA and a 3.00 cumulative GPA are given priority for admission on a space available basis.

At the University of Missouri-Columbia, students must have and maintain a 3.0 GPA or higher to gain admission.

The University of South Carolina requires students to have and maintain a 2.5 GPA.

The University of Florida requires students to earn a GPA of 3.0 on all work attempted. Florida's program is a limited admissions program so all applicants are considered on a space-available basis and admission is not guaranteed.

The University of Georgia Advertising and Public Relations Department requires an overall GPA of 2.8 and does not guarantee acceptance because the "number of spaces available for new students varies by semester and is determined by the availability of teaching staff, classroom space, lab facilities and other resources...as well as our commitment to help students proceed efficiently through our 4-semester programs."

The program at the University of Kentucky requires a minimum 2.6 GPA. Students seeking to enter the UK program must attain a minimum 3.0 GPA on all premajor courses.

About four years ago, the Ad/PR Sequence in the Journalism Department established a gpa requirement of 2.25 to enter the sequence by registering in the 3000 level introductory Ad/PR Sequence courses. As demonstrated in the figures below, enrollment has continued to grow however and is now challenging our resources. There is little expectation for an increase in those resources for the next few years. Therefore, we now propose raising the gpa requirement for entering the Ad/PR Sequence by registering in the fundamental Ad/PR courses to 2.5 to maintain the quality of our sequence and remain competitive with other Ad/PR programs.

Student demand for the Ad/PR Sequence has increased dramatically over the past two decades. For example, the Spring 1986 Journalism Department enrollment by sequence was:

<u>62</u>	<u>Ad/PR Sequence</u>
<u>67</u>	<u>Broadcast Sequence</u>
<u>96</u>	<u>Print News/Editorial Sequence</u>
<u>28</u>	<u>Undecided</u>
<u>-----</u>	
<u>253</u>	<u>Journalism Majors</u>

In Fall 2004 (right before the 2.25 gpa requirement was approved) there were:

<u>239</u>	<u>Ad/PR Sequence</u>
<u>117</u>	<u>Broadcast Sequence</u>
<u>94</u>	<u>Print News/Editorial Sequence</u>

65 Undecided or Enrolled in 2 Sequences Simultaneously

515 Journalism Majors

In Fall 2008, the enrollment figures were:

263 Ad/PR Sequence

120 Broadcast Sequence

79 Print News/Editorial Sequence

49 Undecided or Enrolled in 2 Sequences Simultaneously

511 Journalism Majors

Thus, over the past two decades, the Ad/PR Sequence has grown from the smallest to the largest sequence comprising over half of Journalism majors. The Ad/PR Sequence is more than twice as large as the next most popular sequence (Broadcast). Our departmental resources are strained by this growth. Only three of the department's nine tenured or tenure-track faculty teach the 3000 and 4000 level courses specifically required in the Ad/PR Sequence. One instructor also assists in teaching one required 4000 level Ad/PR course, among other courses she teaches for the department.

These enrollment demands are exacerbated by our accreditation status (which again is in the best interest of the students and our program). The advanced Ad/PR skills courses are to be taught in a lab and capped at an enrollment of 15-20 students. Only about one-third of Journalism and Mass Communication programs nationwide are accredited, so it is crucial to maintaining a quality and competitive sequence, to handle departmental resources wisely, and allow our graduates to compete effectively on the job market and for admission to graduate programs.

We propose raising the GPA requirement to only 2.5 to allow access to as many students as possible, yet limit enrollment somewhat to provide a competitive sequence. We do not propose instituting a "space available" policy as some other programs do. Obviously the 2.5 GPA is lower than those required at the major programs noted above, except for South Carolina. We seek to establish the lowest reasonable GPA requirement to maintain quality but allow as many students as possible to participate in the Ad/PR Sequence.

SECTION VII: Catalog Text and Format

In the box below, insert the current catalog text which is to be changed, with changes highlighted with the color yellow. Include all proposed changes identified in Section V. Only changes explicitly stated in Section V will be considered for approval by the University Course and Programs Committee, the Graduate Council and the Faculty Senate. SECTION V: Proposed Changes to an Existing Program

Insert here a statement of the exact changes to be made: This proposal, if passed, will change the courses in which students will write papers to satisfy the Fulbright College writing requirement.

Check all the boxes that apply and complete the required sections of the form:

- [] Change of Name and Code (Complete only sections I, II, V and VII.)
[X] Change Course Requirements: (Complete all sections of the form except "Proposed Name" in II, section III, and section IV.)

- Change Delivery Site/Method (Complete all sections of the form except "Proposed Name" in II, section III, and section IV.)
- Change Total Hours (Complete all sections of the form except "Proposed Name" in II, section III, and section IV.)

SECTION VI: Justification

Justify this change and state its likely effect on any other degree program (including those outside the school or college). Identify any program or program components (other than courses) to be eliminated if this program is implemented. (Program and course change forms must also be submitted for such related changes.)

This change will simplify the administration of the writing requirement by replacing three courses as options with only one, for Music Education Majors, for whom the one class is required.

SECTION VII: Catalog Text and Format

Insert the current catalog text, with proposed changes identified in Section V inserted and tracked in Microsoft Word. Be sure that all proposed changes are inserted and tracked. Only changes explicitly stated in Section V will be considered for approval by the University Course and Programs Committee, the Graduate Council and the Faculty Senate.

Include the following elements, in order, in the catalog text for proposed undergraduate program(s) or program changes:

- State complete major/program name
- Briefly define or describe the major/program or discipline.
- Identify typical career goals or paths for graduates. (Optional)
- State admission requirements (if any) for entry or entry into upper/advanced level of major/program.
- Identify location in catalog of university, college/school, and department/program requirements which the student must meet in addition to hours in the major, but do not restate these requirements.
- State course requirements in the major and any allied areas, giving number of hours and specific courses; specify electives or elective areas and give numbers of hours and courses in elective pools or categories; identify any other course requirements.
- State any other requirements (required GPA, internship, exit exam, project, thesis, etc.).
- Identify name and requirements for each concentration (if any).
- Specify whether a minor or other program component is allowed or required and provide details.

For minors, state requirements in terms of hours, required courses, electives, etc.

For graduate program/units, include elements (as needed) parallel to those listed for undergraduate programs above.

For Law School program/units, prepare text consistent with current catalog style.

For centers, prepare text consistent with current catalog style.

Current Catalog Copy (p. 180, Catalog of Studies 08-09): "Writing Requirement: Students can meet the Fulbright College writing requirement by submission of a satisfactory term paper for MUHS 4253, MUED 4273, MUED 4283, or MUED 4293."

Proposed Catalog Copy: "Writing Requirement: Students can meet the Fulbright College writing requirement by submission of a satisfactory term paper for MUED 4112 (music education majors), or MUHS 4253 (all other music majors)."

SECTION VI: Justification

Justify this change and state its likely effect on any other degree program (including those outside the school or college). Identify any program or program components (other than courses) to be eliminated if this program is implemented. (Program and course change forms must also be submitted for such related changes.)

Enrollment in Russian Studies and actual degrees awarded to students pursuing a Russian Studies combined major are not high enough to meet AR Department of Higher Education minimum productivity requirements. Only 4 students have completed the requirements for a combined major in Russian Studies in the last 5 years, resulting in an annual 5-year average of less than 1 student per year. The enrollment patterns for the last few years have indicated between 5 - 8 students enrolled as Russian Studies combined majors, which are not large enough numbers to suggest any expected increases in the number of degrees awarded in this area, and in fact, suggest that the numbers might continue to dwindle. The College wishes to discontinue this unproductive program and focus resources elsewhere. Students interested in Russian affairs will be encouraged to pursue a combined major in European Studies, and will still be able to take courses in Russian language, history, and literature as part of that major.

SECTION VII: Catalog Text and Format

In the box below, insert the current catalog text which is to be changed, with changes highlighted with the color yellow. Include all proposed changes identified in Section V. Only changes explicitly stated in Section V will be considered for approval by the University Course and Programs Committee, the Graduate Council and the Faculty Senate. If you are proposing a new program, give proposed text with all of the elements listed below. If you are proposing modified text, include these elements as appropriate.

Include the following elements, in order, in the catalog text for proposed undergraduate program(s) or program changes:

- State complete major/program name
- Briefly define or describe the major/program or discipline.
- Identify typical career goals or paths for graduates. (Optional)
- State admission requirements (if any) for entry or entry into upper/advanced level of major/program.
- Identify location in catalog of university, college/school, and department/program requirements which the student must meet in addition to hours in the major, but do not restate these requirements.
- State course requirements in the major and any allied areas, giving number of hours and specific courses; specify electives or elective areas and give numbers of hours and courses in elective pools or categories; identify any other course requirements.
- State any other requirements (required GPA, internship, exit exam, project, thesis, etc.).
- Identify name and requirements for each concentration (if any).
- Specify whether a minor or other program component is allowed or required and provide details.
- State eight-semester plan requirements

For minors, state requirements in terms of hours, required courses, electives, etc.

For graduate program/units, include elements (as needed) parallel to those listed for undergraduate programs above.

For Law School program/units, prepare text consistent with current catalog style.

For centers, prepare text consistent with current catalog style.

LETTER OF NOTIFICATION – 5

DELETION

(Certificate, Degree, Option, Organizational Unit)

1. Institution submitting request: University of Arkansas, Fayetteville
2. Contact person/title: Nancy Talburt, Vice Provost for Academic Affairs
3. Phone number/e-mail address: (479) 575-2151 / netal@uark.edu
4. Proposed effective date: Fall 2010
5. Title of certificate, degree program: Russian Studies combined/secondary major
6. CIP Code: 16.0402
7. Degree Code:
8. Reason for deletion: This has been a non-productive program in terms of the numbers of students who earn degrees with a Russian Studies combined/secondary major. The 2004-2008 5-year average number of degrees awarded with a Russian Studies combined major is 0.8.
9. Number of students still enrolled in program: 13
10. Expected graduation date of last student: May, 2012
11. Name of courses which will be deleted as a result of this action: N/A
12. How will students in the deleted program be accommodated: Current RSST students will be allowed to complete their program by May 2012, and any others who do not finish by that time will be allowed to complete the European Studies combined/secondary major which will be assimilating much of the existing Russian Studies coursework under their umbrella.
13. Are funds available for reallocation? No. Russian Studies was already an interdisciplinary program drawing from courses and instructors in the departments of history, political science and foreign languages. Those courses and instructors will still likely teach many of the same courses which draw students from across the University, but who do not necessarily declare a combined major in Russian Studies. Students who have an interest in Russian Studies will still be allowed to focus on pursuing this area, but under the umbrella of European Studies in the future.

Code/Name 5570 MAT in Vocational Education Effective Catalog Year 2010

No new students admitted to program after Term: Spring Year: 2005
Allow students in program to complete under this program until Term: Summer Year: 2010

SECTION V: Proposed Changes to an Existing Program or Program Policies

Insert here a statement of the exact changes to be made:

Check if either of these boxes apply and provide the necessary signature:

- Program change proposal adds courses offered by another academic college, and that college dean's office has been notified. The signature of the dean of that academic college is required here: _____
- Program change proposal deletes courses offered by another academic college, and that college dean's office has been notified. The signature of the dean of that academic college is required here: _____

Check all the boxes that apply and complete the required sections of the form:

- Change of Name and Code (Complete only sections I, II, V and VII.)
- Change Course Requirements: (Complete all sections of the form except "Proposed Name" in II, section III, and section IV.)
- Change Delivery Site/Method (Complete all sections of the form except "Proposed Name" in II, section III, and section IV.)
- Change Total Hours (Complete all sections of the form except "Proposed Name" in II, section III, and section IV.)
- Change in Program Policies

SECTION VI: Justification

Justify this change and state its likely effect on any other degree program (including those outside the school or college). Identify any program or program components (other than courses) to be eliminated if this program is implemented. (Program and course change forms must also be submitted for such related changes.)

Degree program content was integrated into a variety of other academic programs in Curriculum and Instruction; namely an undergraduate degree in Career and Technical Education. The Bachelor's degree in Career and Technical Education is more appropriate for work in public schools.

SECTION VII: Catalog Text and Format

In the box below, insert the current catalog text which is to be changed, with changes highlighted with the color yellow. Include all proposed changes identified in Section V. Only changes explicitly stated in Section V will be considered for approval by the University Course and Programs Committee, the Graduate Council and the Faculty Senate. If you are proposing a new program, give proposed text with all of the elements listed below. If you are proposing modified text, include these elements as appropriate.

Include the following elements, in order, in the catalog text for proposed undergraduate program(s) or program changes:

- State complete major/program name
- Briefly define or describe the major/program or discipline.
- Identify typical career goals or paths for graduates. (Optional)
- State admission requirements (if any) for entry or entry into upper/advanced level of major/program.
- Identify location in catalog of university, college/school, and department/program requirements which the student must meet in addition to hours in the major, but do not restate these requirements.
- State course requirements in the major and any allied areas, giving number of hours and specific courses; specify electives or elective areas and give numbers of hours and courses in elective pools or categories; identify any other course requirements.
- State any other requirements (required GPA, internship, exit exam, project, thesis, etc.).
- Identify name and requirements for each concentration (if any).
- Specify whether a minor or other program component is allowed or required and provide details.
- State eight-semester plan requirements

For minors, state requirements in terms of hours, required courses, electives, etc.

For graduate program/units, include elements (as needed) parallel to those listed for undergraduate programs above.

For Law School program/units, prepare text consistent with current catalog style.

For centers, prepare text consistent with current catalog style.

The section describing the EdS will be deleted from the Graduate School catalog text.

Justify this change and state its likely effect on any other degree program (including those outside the school or college). Identify any program or program components (other than courses) to be eliminated if this program is implemented. (Program and course change forms must also be submitted for such related changes.)

This is a non-productive program. No students have completed an MS in Applied Physics since 2004. Current ADHE minimum productivity requirements state that masters-level programs must produce an average of 2 degree recipients per year over a 5-year average. The current 5-year average (2004-2008) for the APHYMS is 0.4.

In fall '07, there were no students enrolled in the APHYMS, nor in fall '08, and there are no students currently actively enrolled in the APHYMS program.
