

ATTACHMENT 2D-2

Thanks Jodie for all of your help, this will make UPCP much easier this Friday for us! Thanks for the heads up on the permission only. Let me know if I can be of assistance to you from HKRD.

Best to you, Susan Mayes, Undergraduate Coordinator
HKRD Department

Subject: RE: Permission POSC 4923

Susan,

I have received confirmation from Dr. Michael Kidd, Department Head of Poultry Science, confirming that the POSC 4923 Brain and Behavior course may be listed as an option on the Kinesiology Exercise Science program. Please be aware that Dr. Kidd has also indicated the course will be changing to instructor permission for enrollment. This will necessitate your students contacting Dr. Wayne Kuenzel to be administratively enrolled in the course.

If you have any questions or if I may provide additional information; please do not hesitate to contact me.

Thank you,

Kaaron "Jody" Davis

Subject: Permission-FYI

Hi Chuck and Joann,

Our students in Kinesiology Exercise Science have been required to take PSYC 4183, Behavioral Neurosciences for several years. This presented a problem for Jeff Stripling (PSYC professor) because we were taking too many seats in his class. To help this situation we found POSC 4923 Brain and Behavior and BIOL 4793 Introduction to Neurobiology and have been using those classes as substitutes for the PSYC 4183. However, this has required petitioning in our College (COEHP), so we are proposing that these classes be listed as "official" alternatives in the KINS program plan in the 2011 catalog of studies. It is actually nothing that we are not already doing but I wanted to be sure that you would not have a problem with it when it goes to UCPC. Thank you in advance for kindly responding.

Best Regards,
Susan Mayes, Undergraduate Coordinator, HKRD
