

## University Course and Programs Committee

### Program Change Tables

August 10, 2012

#### Undergraduate Program Changes

##### TABLE ONE

#### Bumpers College of Agriculture, Food and Life Sciences

##### School of Human Environmental Sciences

HESCBS – BSHEB, Bachelor of Science in Human Environmental Sciences, General Human Environmental Science Concentration – Attachments 1A, 1A-1, 1A-2, 1A-3, 1A-4, 1A-5 and 1A-6

The changes specified for this program change allow faculty to teach courses more effectively and efficiently while keeping with the university's idea of teaching, research and service. Deletion of HESC 4813 was due to the interior design program leaving the School of Human Environmental Sciences. Addition of HESC 1603 allows students exposure to the hospitality industry. Changes to HLSC courses are reflected in that the program changed its name to CHLP. Use of CATE 4803 will eliminate the need for course substitutions for HESC 4813 (See Attachment 1A-1 for College of Education and Health Professions approval). The total hours for the degree are being reduced to 120 hours in order to comply with ACT 747.

##### TABLE TWO

#### College of Engineering

##### Department of Computer Science and Computer Engineering

CSCEBA – BA, Bachelor of Arts in Computer Science – Attachments 2A, 2A-1 and 2A-2

The proposed changes to the BA program are a) delete ENGL 2003 Adv. Composition and replace with ENGL 3053 Tech/Report Writing, b) remove five hours of free electives, c) clarify wording for University Core requirements and d) reduce the total required hours from 125 to 120 in order to comply with ACT 747.

**TABLE THREE**

**Graduate School and International Education**

Department of Curriculum and Instruction

CIEDME – MED, Masters of Education in Curriculum and Instruction – Attachment 3A

Changes being proposed are for the purpose of providing more "interest area" options to the students and, at the same time, giving the enhanced degree a clear focus at the level of the core classes. The course requirements are being modified and restructured to provide for a broader education in the core courses of Curriculum and Instruction as well as "interest area" options in Science Education, Social Studies Education, English Education, Elementary Education, Gifted Education and TESOL.
