SECTION VI: Justification

Justify this change and state its likely effect on any other degree program (including those outside the school or college). Identify any program or program components (other than courses) to be eliminated if this program is implemented. (Program and course change forms must also be submitted for such related changes.)

SECTION VII: Catalog Text and Format

In the box below, insert the current catalog text which is to be changed, with changes highlighted with the color yellow. Include all proposed changes identified in Section V. Only changes explicitly stated in Section V will be considered for approval by the University Course and Programs Committee, the Graduate Council and the Faculty Senate. If you are proposing a new program, give proposed text with all of the elements listed below. If you are proposing modified text, include these elements as appropriate.

Include the following elements, in order, in the catalog text for proposed undergraduate program(s) or program changes:

- State complete major/program name
- Briefly define or describe the major/program or discipline.
- Identify typical career goals or paths for graduates. (Optional)
- State admission requirements (if any) for entry or entry into upper/advanced level of major/program.
- Identify location in catalog of university, college/school, and department/program requirements which the student must meet in addition to hours in the major, but do not restate these requirements.
- State course requirements in the major and any allied areas, giving number of hours and specific courses; specify electives or elective areas and give numbers of hours and courses in elective pools or categories; identify any other course requirements.
- State any other requirements (required GPA, internship, exit exam, project, thesis, etc.).
- Identify name and requirements for each concentration (if any).
- Specify whether a minor or other program component is allowed or required and provide details.
- State eight-semester plan requirements

For minors, state requirements in terms of hours, required courses, electives, etc.

For graduate program/units, include elements (as needed) parallel to those listed for undergraduate programs above.

For Law School program/units, prepare text consistent with current catalog style.

For centers, prepare text consistent with current catalog style.

The Doctor of Philosophy Degree

The Ph.D. degree in statistics and analytics is designed to prepare a student for independent research in one of these concentrations: statistics; business analytics; operations analytics; computational analytics; educational statistics & psychometrics;

quantitative social science.

Requirements for the Doctor of Philosophy Degree: Candidates for the degree of Doctor of Philosophy with a major in statistics and analytics will be required to complete the following requirements:

- A minimum of 72 semester hours of course credit beyond the bachelor's degree, 24 of which may be dissertation hours (only 18 are required for the degree), and 30 of which may have been earned in the master's degree. Students will choose a concentration in statistics; business analytics; operations analytics; computational analytics; educational statistics & psychometrics; or quantitative social sciences. Course work for the concentration will be selected by the student's advisory committee with the approval of the program director, but will minimally include the courses required in the relevant area for the master's degree.
- Successful completion of a candidacy exam composed of three steps: the proposal of an area of research; examination over that area of research by the advisory committee; and defense of a dissertation proposal. Students who do not successfully pass this candidacy exam on the first try may retake the exam only once.
- Successful completion of a dissertation.
