WCOB	UGRD	025795	ISYS 4133	E BUSINESS DEVELOPMENT	8/15/11	3.2	Other	We request the 3 undergraduate courses (ISYS 4133, ISYS 4263, and ISYS 4933) to be retained as we may offer them in future. More specifically, ISYS 4133 and ISYS 4933 are two undergraduate courses that have correlated graduate courses (ISYS 5133 and ISYS 5933, respectively). We may offer a combined grad/undergrad class once we have the faculty capacity to separate the full-time MIS classes from PMIS classes (we hope to be able to do this in the next couple of years). The third undergraduate course (ISYS 4263) focuses on IT strategy, which is an important topic as per ITRI board members and others but we haven't been able to offer it due to faculty resources. We hope to offer this course as an elective in the next two or three years. Thus, we would appreciate retaining the three undergraduate courses (ISYS 4133, ISYS 4263, and ISYS 4933), perhaps with a statement such as "Course taught on demand, must be available as needed."

WCOB	GRAD	017035	MKTG 6423	SEMINAR CAUSAL MODELING	8/15/08	6.2		Continue to keep inactive. This is the doctoral seminar in structural equation modeling. On the one hand, this course is needed; on the other hand, it is very hard to find someone who can teach it but we are working on it.
