~~Agricultural Policy Concentration This concentration focuses on agricultural and natural resource policy development, implementation and evaluation. It is complementary yet distinct from the environmental concentration. The concern of the concentration will be on the agricultural legislation development process (both federal and state), the regulatory process and the objective assessment of the impact of these policies and regulations on producers, consumers and tax payers. Integral to this concentration will be an international component aimed at fostering understanding of the role of U.S. agricultural policy in the global food and fiber arena.~~ **Agricultural Policy Concentration**
