Program Goals and Objectives

**Program Goals and Objectives**

The educational objective of the Chemical Engineering graduate program is to prepare students for advanced roles in the profession through a combination of planned coursework and research activities so that graduates are equipped to address present and future challenges in such areas as research, teaching, management, and entrepreneurship.

Learning Outcomes

**Learning Outcomes**

The educational outcomes of our graduate program are to assure that each student has had an opportunity to:

- a. Critically analyze meaningful and technologically relevant data, and for thesis students, plan and safely conduct research;
- b. Demonstrate proficiency in fundamental mathematics and chemical engineering problem solving;
- c. Understand professional and ethical responsibility; and

<b>Learning Outcomes</b>
--------------------------

d. Develop and use effective written and oral communication skills.
