

CIM Report Nov 9, 2018 4:09pm

Course Changes Pending Approval from University Course and Program Committee

Code	Field	Old Value	New Value
ADLL 6463			Added
CATE 3103H	allcodes	CATE 4003H	CATE 3103H
	Proposed Effective Date	Spring 2018	Spring 2019
	Course Number	4003H	3103H
	Title/Description Change Type	Minor (stylistic/editorial) Change	
	Justification	Admin add of a space in short title.	This is the honors equivalent of the CATE 3103 Introduction to Professionalism course.
	Course Code	CATE 4003H	CATE 3103H
	Prerequisite(s)		Career and Technical Education (CATE) students only.
	Syllabus		CATE 3103 and CATE 3103H Professionalism 2018.docx
	Reviewer Comments		ac087 - Thu, 11 Oct 2018 17:23:02 GMT - Spring 2019 effective date pending completion before start of classes, otherwise will be moved to Summer 2019.
EDRE 6463			Added
EMGT 5053			Added
ENTO 4123	Catalog Title	Insect Pest Management (Odd years, Sp)	Insect Pest Management
	Catalog Description	Study of principles and concept of insect pest management. Areas covered include survey of arthropod pests and damage, population dynamics, damage thresholds, physiological units, prediction models, surveillance, arthropod sampling, strategies and tactics utilized to maintain pest populations below economic injury levels.	Study of principles and concept of insect pest management. Areas covered include survey of arthropod pests and damage, population dynamics, damage thresholds, physiological units, prediction models, surveillance, arthropod sampling, strategies and tactics utilized to maintain pest populations below economic injury levels.
	Academic Level	Dual Level	Undergraduate
	Proposed Effective Date		Fall 2019
	Typically Offered		Spring Odd Years
	Course Delivery Method		On campus
	Title/Description Change Type		Minor (stylistic/editorial) Change
	Justification		dual level courses are being separated - ENTO 5153 already approved for fall 2018
	Reviewer Comments		ac087 - Thu, 24 May 2018 14:43:58 GMT - changed effective date from Fall 2018 to Fall 2019. Course will not complete approval process in time. agriffin - Tue, 30 Oct 2018 21:07:36 GMT - Corrected typo in course description.
FDSC 4823			Inactivated/Deleted
FDSC 3923H			Inactivated/Deleted
GEOS 1123	Proposed Effective Date	Spring 2018	Spring 2019
	Create Honors Course?	No	Yes

	Justification	The online version of Human Geography is designed to facilitate off-campus student access to this core class. The distance education version of this class, which previously served the off-campus student community, has been withdrawn.	The addition of an honors section will help fulfill demand for lower level core honors classes in Geosciences and Fulbright.
	Syllabus	Human online 1123.docx	
HOSP 3603	Title/Description Change Type	Minor (stylistic/editorial) Change	Major Content Change
	Short Course Title	MENU, LAYOUT FOOD PREP	CULTURE AND CUISINES
	Catalog Title	Menu, Layout Food Preparation	Culture and Cuisines of the World
	Catalog Description	Preparation and service of food for large groups. Course includes recipe standardization, menu planning, cost control, sanitation, safety, and overall quality assurance. Instruction for planning food flow from receiving to service of meals, including choosing proper equipment for the flow plan and service items. Lecture 2 hours, laboratory 6 hours per week.	Explores foods and food ways of various cultural/ethnic groups. Considers origin and migration of foods and customs throughout the world. Studies food's relationship to cultural groups, geographical location, social practices and economic well-being. Analyzes impact of multiple cultures on foods, food preparation, and food ways in the U.S. Students must have a current Food Managers Certification, which is achieved upon successful completion of HOSP 2611.
	Course Delivery Method	On campus ONLN	On campus
	Reviewer Comments	lindsay - Wed, 12 Nov 2014 14:21:45 GMT - Rollback: Please add "online/web-based" course delivery method.	Ikulcza - Tue, 19 Sep 2017 20:10:52 GMT - Rollback: Per request from Global Campus. kbible - Wed, 20 Sep 2017 22:25:58 GMT - Rollback: Rolling back per Betsy Garrison - remove online delivery. mrevans - Fri, 27 Oct 2017 14:21:55 GMT - Rollback: All syllabi must have "Student Learning Outcomes". mrevans - Mon, 30 Oct 2017 19:35:09 GMT - Rollback: Rolling back to fix Student Learning Outcomes and to work on prereqs justification. ac087 - Fri, 03 Nov 2017 20:38:49 GMT - Rollback: department would like to make changes ac087 - Fri, 11 May 2018 16:35:36 GMT - change effective date, proposal is considered a major change and undergrad major changes must coincide with new catalog publication cycle. ac087 - Fri, 11 May 2018 16:37:41 GMT - Rollback: prerequisites contain information better suited for the description. Please remove or move the following statement. Students are expected to: know how to create and calculate purchase orders, which they would learn the subject in HOSP 2603. Students are expected to know food safety and sanitations which they would learn that in HOSP 1603. Ikulcza - Mon, 01 Oct 2018 15:03:00 GMT - Per request of department, adding HOSP 2611 to requisites and inserting statement regarding Food Managers Certification. See attached email. agriffin - Fri, 02 Nov 2018 13:56:48 GMT - Uploaded revised copy of syllabus.
	Proposed Effective Date	Spring 2015	Fall 2019
	Prerequisite(s)	NUTR 1213 and HOSP 2603 and Junior standing.	HOSP 1603, HOSP 2603, HOSP 2611, junior standing and HOSP majors only.

	Justification	Addition of Junior Standing per request from HOSP faculty.	Content to focus on the cultural aspects of the food prepared in HOSP 3601L, as well as the preparation methods and heritage of the cuisine.
	Typically Offered		Fall and Spring
	Pre- or Corequisite(s)		HOSP 3601L.
	Syllabus		HOSP 3603 change prerequisite and description.pdf HOSP 3603 Culture and Cuisines of the World.pdf HOSP 3603.docx
	Additional Notes		To be effective FALL 2018.
	allcodes		HOSP 3603
LARC 2113	Proposed Effective Date	Summer 2018	Fall 2019
	Catalog Title	Design Communications I	Design Visualization, Inquiry and Communications
	Short Course Title	DESIGN COMMUNICATIONS I	DESIGN COMMUNICATIONS
	Catalog Description	Introduces basic graphic techniques fundamental to the communication of landscape design and landscape architecture. Emphasis on effective and efficient communication using free-hand and digital tools and techniques most frequently utilized in landscape architecture. Limitations and advantages are identified, and shared principles in both hand and computer graphics are emphasized.	Investigation and application of foundational, current and innovative techniques and technologies used in landscape architecture. Field work and other modes of inquiry and seeing are used to study sites. Processes and workflow are learned. Students learn inquiry through technologies, site context investigation, and how to communicate to stakeholders.
	Title/Description Change Type	Minor (stylistic/editorial) Change	Major Content Change
	Justification	Updated typically offered field.	This course has been updated with a new title, course description and learning outcomes as part of an overall reconstruction of our four-year professional degree in Landscape Architecture (LARCBL).
	Syllabus		LARC 2113.docx
	Reviewer Comments		agriffin - Fri, 02 Nov 2018 20:42:46 GMT - Changed short title. Removed "I" from title with permission from submitter.
LARC 2335	allcodes	LARC 2336	LARC 2335
	Proposed Effective Date	Summer 2018	Fall 2019
	Course Number	2336	2335
	Credit Hours	6	5
	Catalog Title	Landscape Architecture Design III	Landscape Architecture Design III: Engaging Site, Engaging Place
	Catalog Description	Introduction to design process(s) which responds to site and context. Reinforcement of design principles and organization systems applied to small scale design projects. Studio and lecture.	Fundamentals of site inventory, analysis, and assessment. Through measurement, observation, and documentation, students engage with the design of local and regional sites, synthesizing place-based inventorial understanding and experiential response. Students gain an appreciation for both quantifiable and qualitative measurement and observation as creative tools for design development.
	Title/Description Change Type	Minor (stylistic/editorial) Change	Major Content Change
	Prerequisite(s)	LARC 1326.	LARC 1325.

	Justification	Updated typically offered field.	This course has been updated with a new title, course description and learning outcomes as part of an overall reconstruction of our four-year professional degree in Landscape Architecture (LARCBL).
	Course Code	LARC 2336	LARC 2335
	Corequisite(s)		LARC 2331.
	Syllabus		LARC 2335.docx
LARC 2345	allcodes	LARC 2346	LARC 2345
	Proposed Effective Date	Summer 2018	Fall 2019
	Course Number	2346	2345
	Credit Hours	6	5
	Catalog Title	Landscape Architecture Design IV	Landscape Architecture IV: Collaborating with Site
	Catalog Description	(Formerly LARC 3345) Expansion of abilities to analyze existing conditions of site and develop methods for interpreting and synthesizing information and perceptions into spatial design proposals. Emphasis on design form and the use of meaning and landscape narrative applied to increased scale projects within a larger or more complex context. Studio and lecture.	Students consider an increased complexity of landscape issues and multi-purpose design strategies within a local or regional context, while simultaneously responding to external programmatic requirements. Instructor-guided design projects reinforce the value of site exploration and enumeration. The design process is enriched through programmatic and service requirements, stakeholder collaboration, and reflection on design implication.
	Title/Description Change Type	Minor (stylistic/editorial) Change	Major Content Change
	Prerequisite(s)	LARC 2336 and LARC 3413.	LARC 2335.
	Justification	Updated typically offered field.	This course has been updated with a new title, course description and learning outcomes as part of an overall reconstruction of our four-year professional degree in Landscape Architecture (LARCBL).
	Course Code	LARC 2346	LARC 2345
	Corequisite(s)		LARC 2341.
	Syllabus		LARC 2345.docx
LARC 2714	Proposed Effective Date	Summer 2018	Fall 2019
	Typically Offered	Spring	Fall
	Catalog Title	Landscape Architecture Construction I	Ecological Design and Construction: Terrain
	Catalog Description	(Grading) Introduction to landscape architectural construction with an emphasis on grading, earthwork computations, and technical drawing skills. Introduction to roadway alignment, the land survey system, and construction documents. Lecture and laboratory.	Introduces students to fundamental principles of reading and understanding geomorphology, site systems, and site design. Design tools include grading techniques, earthwork computations, and site-related documentation of natural and built structures. Site-related principles of sustainability are introduced as a framework for solving contemporary site issues.
	Title/Description Change Type	Minor (stylistic/editorial) Change	Major Content Change
	Justification	Updated typically offered field.	This course has been updated with a new title, course description and learning outcomes as part of an overall reconstruction of our four-year professional degree in Landscape Architecture (LARCBL).
	Syllabus		LARC 2714.docx
	Reviewer Comments		ac087 - Thu, 01 Nov 2018 20:04:08 GMT - changed typically offered per email from Melinda Smith on 11/1/18.
LARC 2914		Added	

LARC 3355	allcodes	LARC 3356	LARC 3355
	Proposed Effective Date	Summer 2018	Fall 2019
	Course Number	3356	3355
	Typically Offered	Fall	Summer
	Credit Hours	6	5
	Catalog Title	Landscape Architecture Design V	Landscape Architecture Design V: International Urban Place
	Title/Description Change Type	Minor (stylistic/editorial) Change	Major Content Change
	Prerequisite(s)	LARC 2346 and LARC 2714; and acceptance into the professional program.	LARC 2345.
	Justification	Updated typically offered field.	This course has been updated with a new title, course description and learning outcomes as part of an overall reconstruction of our four-year professional degree in Landscape Architecture (LARCBL).
	Course Code	LARC 3356	LARC 3355
	Corequisite(s)		LARC 3351.
	Syllabus		LARC 3355.docx
	Reviewer Comments		ac087 - Thu, 01 Nov 2018 20:04:50 GMT - changed typically offered per email from Melinda Smith on 11/1/18.
LARC 3365	allcodes	LARC 3366	LARC 3365
	Proposed Effective Date	Summer 2018	Fall 2019
	Course Number	3366	3365
	Typically Offered	Spring	Fall
	Credit Hours	6	5
	Catalog Title	Landscape Architecture Design VI	Landscape Architecture Design VI: Engaging Communities; Understanding Culture
	Catalog Description	Investigation of ecological determinism, historic and contemporary planning, and sustainable design as distinct approaches to landscape architecture. Studio and lecture.	Students engage in design projects working for and/or with a particular population, including forming partnerships with a variety of stakeholders. The studio emphasizes empathy and understanding of competing value systems. Students apply a new cultural understanding to design projects.
	Title/Description Change Type	Minor (stylistic/editorial) Change	Major Content Change
	Prerequisite(s)	LARC 3356.	LARC 3355.
	Justification	Updated typically offered field.	This course has been updated with a new title, course description and learning outcomes as part of an overall reconstruction of our four-year professional degree in Landscape Architecture (LARCBL).
	Course Code	LARC 3366	LARC 3365
	Corequisite(s)		LARC 3361.
	Syllabus		LARC 3365.docx
LARC 3371	Added		
LARC 3724	Proposed Effective Date	Summer 2018	Fall 2019
	Catalog Title	Landscape Construction II	Ecological Design and Construction: Water and Drainage

	Catalog Description	Introduction to landscape architectural materials and methods of construction and assembly. Emphasis on material properties and how those properties affect the materials use in the landscape and interactions with other materials. Introduction to dimensioning and layout systems and parking requirements with increased complexity of construction documents. Lecture and laboratory.	Introduces water-related issues as encountered and addressed by landscape architects. Students will understand, apply, and design infrastructure such as retention/detention ponds, bioswales, and constructed wetlands. Technical documentation methods as a means of conveying design intent are included.
	Title/Description Change Type	Minor (stylistic/editorial) Change	Major Content Change
	Justification	Updated typically offered field.	This course has been updated with a new title, course description and learning outcomes as part of an overall reconstruction of our four-year professional degree in Landscape Architecture (LARCBL).
	Prerequisite(s)		LARC 2714.
	Syllabus		LARC 3724.docx
LARC 3914	Proposed Effective Date	Summer 2018	Fall 2019
	Catalog Title	Planting Design I	Sustainable Design and Construction: Remediation and Plants on Structure
	Short Course Title	PLANTING DESIGN I	PLANT ON STRUCTURE
	Catalog Description	Introduction to small scale projects involving use of plant materials in relation to other landscape elements, formulation of a vocabulary of plant materials and preparation of integrated planting plans and applicable specifications. Includes laboratory.	Introduces particular strategies and techniques of plant use in the built environment. Potential topics include green infrastructure, site, soil, and water remediation techniques, and structural considerations of planting on structure.
	Title/Description Change Type	Minor (stylistic/editorial) Change	Major Content Change
	Prerequisite(s)	HORT 3103.	
	Justification	Updated typically offered field.	This course has been updated with a new title, course description and learning outcomes as part of an overall reconstruction of our four-year professional degree in Landscape Architecture (LARCBL).
	Syllabus		LARC 3914.docx
LARC 4033	Proposed Effective Date	Summer 2018	Fall 2019
	Typically Offered	Fall	Summer
	Component Type	Lecture	Seminar
	Catalog Title	Theory	Landscape Architecture Theory
	Short Course Title	THEORY	LANDSCAPE ARCHITECTURE THEORY
	Catalog Description	Introduction to seminal theories in landscape architecture, environmental design and planning. Readings and case studies will be utilized to explore interaction and connection across a range of disciplinary theoretical intersections.	Examination of historic and current theories in landscape architecture and planning to develop critical judgement. Seminar format includes readings and case studies in issues such as social and environmental justice.
	Title/Description Change Type	Minor (stylistic/editorial) Change	Major Content Change
	Justification	Updated typically offered field.	This course has been updated with a new title, course description and learning outcomes as part of an overall reconstruction of our four-year professional degree in Landscape Architecture (LARCBL).
	Syllabus		Syllabus_LARC 4033_Theory.docx

	Reviewer Comments		ac087 - Fri, 12 Oct 2018 19:37:43 GMT - Rollback: department making corrections. ac087 - Thu, 01 Nov 2018 20:08:13 GMT - changed typically offered term per email from Melinda Smith on 11/1/18. agriffin - Fri, 09 Nov 2018 15:24:31 GMT - Changed course component from lecture to seminar with permission from submitter.
LARC 4391		Added	
LARC 4811		Added	
LARC 5613	Proposed Effective Date	Summer 2018	Fall 2019
	Typically Offered	Spring	Fall
	Catalog Description	Professional responsibilities and related aspects of landscape architecture practice: ethics; office organization; client, contractor and landscape architect relationships; legal issues, contracts and documents; regulations; review of bidding and contractual documents.	Review of professional and disciplinary responsibilities and related aspects (including health, safety, and welfare issues) of private, public and non-profit landscape architectural practice.
	Justification	Updated typically offered field.	This course has updated its content and description to better prepare our students for the professions available to them in Landscape Architecture.
	Title/Description Change Type		Major Content Change
	Syllabus		LARC 5613_Syllabus.docx
	Reviewer Comments		melindas - Fri, 12 Oct 2018 18:40:49 GMT - Rollback: This has turned into a major change with a new course syllabus.

PHYS 2033	Proposed Effective Date	Summer 2018	Spring 2019
	Title/Description Change Type	Minor (stylistic/editorial) Change	
	Prerequisite(s)	PHYS 2013.	PHYS 2013 or PHYS 2054
	Justification	Admin update to typically offered field and delivery method.	Every fall we have students who switch majors, requiring our College Physics sequence instead of our University sequence. Some of these students are completing UP I but now wish to switch to CP II instead of UP II. This requires overriding these students, causing considerable hassle for the instructor. By listing UP I as a possible pre-req for CP II, this avoids the need for an override. CP I and UP I (PHYS 2054) cover the same material, but at a different math level. Those students who have completed UP I will be well prepared for CP II.
