19.0701 - Human Development and Family Studies, General.

Program Title

Human Development and Family Sciences, Bachelor of Science in Human Environmental Science

Program Delivery

Method

On Campus

Online/Web-based

Is this program interdisciplinary?

No

Does this proposal impact any courses from another College/School?

Yes

College(s)/School(s)

College/School Name
College of Education and Health Professions (EDUC)
Fulbright College of Arts and Sciences (ARSC)

What are the total hours needed to complete the program? 120

On-line/Web-based Information

Reason for offering Web-based Program

The request to offer this degree program online is being made because no other institution in Arkansas offers the program online. The degree program prepares students for careers in human services which is an expected need in Arkansas. Making the program available online will broaden the outreach of the degree program to potential students in Arkansas (although it will not be limited to Arkansas) who are not able to move to Fayetteville and attend courses offered on campus. Two other benchmark institutions offer the degree program online (Kansas State and University of Alabama). According an analyses by Global Campus, the proposed online degree will be the second most cost competitive program in the United States. The first is Brigham Young University in Idaho, but the admission requirements to that program are particular and will not mirror those at the University of Arkansas. The faculty have considerable experience in developing and delivering online programs and will use this expertise to deliver courses and the program to more students who find that these courses facilitate their progress toward a degree.

Program Goals and

Objectives

Program Goals and Objectives

Program Goals:

The goal of the HDFS undergraduate program is to provide educational experiences that (1) provide students with accurate and evidence-based knowledge of the bio-ecological context of human development, (2) develop students' appreciation for the diversity in the lived experiences of individuals and families, (3) give students the cognitive tools to critically evaluate theory and research in HDFS, (4) provide students with a cognitive framework to understand and affect positive change in the lives of individuals, families, and social systems, and (5) develop students' professional skills in regard to writing, making oral presentations, and evaluating social service programs and social contexts.

Program Objectives:

HDFS students are expected to:

1. Identify and describe accurate and evidence-based knowledge of the bio-ecological context of human development to include being knowledgeable and accepting of the diversity in the lived experiences of individuals and families.
2. Demonstrate the ability to identify and address complex social problems by forming solutions that are contextually appropriate and feasible.
3. Critically analyze, evaluate, and synthesize information, ideas, and beliefs in the process of forming conclusions and solutions to complex social issues and problems.

Program Goals and Objectives

- 4. Be proficient in writing, making presentations, and evaluating human service programs and/or social contexts.
- 5. Demonstrate the application of their evidence-based knowledge of diversity, engaging in effective and appropriate interactions across a range of human development. Their behaviors, attitudes, and interactions demonstrate that they have the cultural competency needed to work effectively cross-culturally.
- 6. Identify ethical issues and dilemmas, reflect on their own core values, and apply them to complex social problems.

Learning Outcomes

Learning Outcomes

- Student Learning Outcome 1: Students will identify and describe accurate and evidence-based knowledge of the bio-ecological context of human development to include being knowledgeable and accepting of the diversity in the lived experiences of individuals and families.
- Student Learning Outcome 2: Students will formulate contextually appropriate and feasible policy solutions addressing complex social problems.
- Student Learning Outcome 3: Students will be able to critically analyze, evaluate, and synthesize information, ideas, and beliefs in the process of forming conclusions and solutions to complex social issues and problems.
- Student Learning Outcome 4: Students will be proficient in (a) oral and (b) written communication.
- Student Learning Outcome 5: Students demonstrate the application of their evidence-based knowledge of diversity, engaging in effective and appropriate interactions across a range of human development. Their behaviors, attitudes, and interactions demonstrate that they have the cultural competency needed to work effectively cross-culturally.
- Student Learning Outcome 6: Students will identify ethical issues and dilemmas, reflect on their own core values, and apply them to complex social problems.

Description and justification of the request

Description of specific change	Justification for this change
---------------------------------------	--------------------------------------

Description of specific change	Justification for this change
<ol style="list-style-type: none"> 1. Add College Algebra and Principles of Statistics (STAT 2303) to required courses. 2. Add Introduction to Cultural Competence (HDFS 2493) to required courses. 3. Remove PHIL 2003 from required courses and replace with "Choose 3 credit hours from Introduction to Philosophy (PHIL 2003) or Introduction to Ethics (PHIL 2103)" 4. Change Pre-Internship from HDFS 4451 to HDFS 3481. 5. Reduce General Electives from 14 to 11 credit hours. 6. Remove the requirement that students take both General Psychology and General Sociology to allow students to choose between either of those courses. 	<ol style="list-style-type: none"> 1.. These courses were added to bolster students' abilities to participate in research activities in HDFS. 2. Introduction to Cultural Competence is a key component of the HDFS curriculum. The instructor has designed the course to introduce key concepts so that students are better prepared for the more advanced course, Multicultural Families for which HDFS 2493 will be a pre-requisite. 3. Many HDFS students are transfers from other programs and have already taken PHIL 2103. This addition to the program will prevent those students from taking extra coursework with no appreciable decline in the expectations in the HDFS curriculum. 4. A course change was proposed to lower the Pre-Internship course from a 4000-level to a 3000-level course and that change is reflected here. 5. This was necessary to accommodate the two additional courses (HDFS 2493 and STAT 2303). 6. HDFS students are currently required to take 15 credit hours of courses that meet the State Minimum Core. After this change, HDFS students will only be required to take 12 credit hours that meet State Minimum Core. This will allow three additional General Elective credit hours.
<p>Revised formatting of the eight semester degree plan. Inserted the General Education language.</p> <p>Also added footnote and hyper-linked courses for access to course details. AG</p>	<p>To provide consistency with the General Education curriculum language.</p> <p>Footnote provides a list of courses that specifically meets the General Education Outcome 3.1 on behalf of the college. AG</p>

Reviewer Comments

Alice Griffin (agriffin) (10/13/20 12:10 pm): Revised US History and Government language to US History or Government to be consistent with State Minimum Core language. Also, changed footnote from University Core to State Minimum Core.

Alice Griffin (agriffin) (10/13/20 1:19 pm): Added PHIL 2003 as OR class for PHIL 2103 in first year, spring in the eight semester plan. Also, changed HDFS 4451 to HDFS 3481 in fourth year, fall semester in order to reflect the changes submitted to the program requirements.

Alice Griffin (agriffin) (10/13/20 1:25 pm): Added course title to pending course HDFS 3481 in program requirements.

Alice Griffin (agriffin) (11/02/20 11:49 am): ATTENTION: Program change will require campus approval, since it involves courses outside of the college.

Alice Griffin (agriffin) (11/02/20 1:26 pm): In justification, switched 3000-level with 4000-level to match the program change. Received approval from submitter.
