Program Requirements and Description

Requirements

The Master of Information Systems is designed to provide professional preparation for positions in business and government. It provides sufficient flexibility to meet the needs of students with various backgrounds and foster lifelong learning and innovation. Students may concentrate in one of five areas: Information Technology Management, Enterprise Resource Planning (ERP) Management, Blockchain Enterprise Systems Management, Cybersecurity Management, or Software Engineering Management.

Admission Requirements: Students must apply to and meet the admission requirements of the Graduate School of Business and be admitted by the departmental admissions committee.

~~The Master of Information Systems program is open to students who have earned a bachelor's degree from an accredited institution and who can present evidence of their ability to do graduate work. "Evidence of ability" means superior grade-point average, an acceptable test score on the Graduate Management Admission Test (GMAT) or Graduate Record Exam (GRE), and recommendations with respect to ability for successful pursuit of graduate-level work. International applicants and resident aliens must submit an acceptable TOEFL or IELTS score, or complete the Intensive English Language Program (Spring International Language Center) and receive an English proficiency recommendation for admission. Other admissions criteria can be considered on a case-by-case basis.~~ Requirements for the Master of Information Systems Degree:

Students whose previous studies have fulfilled requirements of the common body of knowledge in business and information systems will be required to complete a minimum of 30 hours of graduate work. The required common body of knowledge in Information Systems includes management information systems, systems analysis, database, and programming languages (such as Visual Basic, Java, or other).

To ensure that students acquire the skills necessary for career success, the M.I.S. program strongly encourages all students to obtain additional training directly related to the M.I.S. program prior to graduation. The M.I.S. program considers this training an integral part of the curriculum and recommends that students work for up to one year in a position (or positions) which allow for the practical application of the theoretical principles taught in M.I.S. courses.

Students who hold non-immigrant status in the United States in the F-1 or J-1 categories are responsible for coordinating any necessary authorization for employment with the Office of International Students and Scholars (ISS). F-1 and J-1 students are strongly advised to discuss training options with the M.I.S. Program Director and the ISS office early in their program, and to make themselves aware of limitations and restrictions related to F-1 or J-1 employment authorization benefits.

Pre-M.I.S.

ISYS 511V IT Toolkit & Skills Seminar (This course may not be used for the Master of Information Systems degree.)

Core Courses

ISYS 5423 Seminar in Systems Development 3

ISYS 5833 Data Management Systems 3

Areas of Concentration 15

Electives 6

Total Hours 30

M.I.S. (Part-time): The Department of Information Systems also provides an opportunity for professionals in the workplace to complete the program by taking 6 hours per semester; 5 semester program with Enterprise Resource Planning (ERP) Management and Blockchain Enterprise Systems (ES) Management concentrations.

Contact the department for additional information or visit the [Graduate School of Business website.](#)

Electives are chosen by the student in consultation with the Master of Information Systems Program Director in the Department of Information Systems (ISYS). Approved electives (6 hours) may be any graduate course approved by the Master of Information Systems program director.

With the approval of the Master of Information Systems Program Director, any senior-level ISYS course (ISYS 4000 or higher) may be taken for graduate credit. After admission, the student must maintain a 3.00 grade-point average on all graduate coursework and all information systems coursework. Additionally, the student must receive a letter grade of at least a “B” in 75 percent of the courses attempted.

For the M.I.S. (part-time), approval of the Director is required to enroll in more than six hours per semester.

Program Goals and

Objectives

Program Goals and Objectives

The Master of Information System (MIS) program provides preparation for the business student at the graduate level to master information systems technology and achieve success in their careers in business/government/and industry. Student entering the MIS program are expected to have a working knowledge of information technology/as well as business. The MIS program of coursework enhances/broadens/extends/and integrates the student’s knowledge of information technology and business concepts in order to solve business problems and support decision making.

Learning Outcomes

Learning Outcomes

Learning Outcomes

COMMUNICATION

Learning Goal: Graduates of the MIS programs at the Sam M. Walton College of Business will be able to communicate effectively in professional situations.

Learning Objective 1 (Oral Communication): Students will be able to deliver effective presentations.

Learning Objective 2 (Written Communication): Students will show proficiency in writing and organizing professional communications.

CRITICAL THINKING/PROBLEM SOLVING

Learning Goal: Graduates of the MIS programs at the Sam M. Walton College of Business will be able to employ ethical problem solving and strategic decision making approaches to information system challenges.

Learning Objective 1 (Decision Making): Students will employ industry-accepted problem solving and decision making skills for IT problems/as well as the ability to evaluate and propose alternative solutions to managers and users.

Learning Objective 2 (Ethical Problem Solving): Students will demonstrate ethical problem solving approaches to IT challenges and opportunities faced by today's businesses in achieving their goals

TECHNICAL COMPETENCE (Discipline Knowledge)

Learning Goal: Graduates of the MIS programs at the Sam M. Walton College of Business will be will be knowledgeable of the application of information technology and business concepts.

Learning Objective: Students will demonstrate the ability to identify, assimilate, synthesize, and analyze the information technology needs, make

2 of 3

recommendations, design, and develop IT transaction systems and decision support systems for the organization.

TEAM WORK

Learning Goal: Graduates of the MIS programs at the Sam M. Walton College of Business will be effective at working in team environment.

Learning Objective: Students will demonstrate effective interpersonal communication skills as a part of a team

Reviewer Comments

Alice Griffin (agriffin) (08/30/21 9:05 am): Inserted program review date.

Alice Griffin (agriffin) (08/30/21 9:12 am): ATTENTION: This minor program change will require campus approval due to the changes made to the admission requirements.

Alan Ellstrand (aellstra) (09/13/21 6:10 pm): Updated CIP Code to 52.0201.

Alice Griffin (agriffin) (09/16/21 3:10 pm): Miscommunication with Alan, changed CIP code back to 52.1301. Our intention was to change the ISYSPH program. Apologies for the confusion.
