Program Requirements and Description

Requirements

Admission Requirements: Students must apply to and meet the admission requirements of the Graduate School of Business and be admitted by the departmental admissions committee.

~~The Master of Science in Supply Chain Management (SCMTMS) program is open to students who have earned a bachelor's degree from an accredited institution and who can present evidence of their ability to do graduatework. "Evidence of ability" means superior grade-point average, an acceptable test score on the Graduate Management Admissions Test (GMAT) or Graduate Record Exam (GRE), and recommendations with respect to ability for successful pursuit of graduate-levelwork. International applicants and residents aliens must submit an acceptable TOEFL or IELTS score, or complete the Intensive English Language Program (Spring International Language Center) and receive an English proficiency recommendation for admission. Other admissions criteria can be considered on a case by case basis.~~

Additional Degree Requirements: In addition to 30 hours of required coursework, students must take a comprehensive exam. The comprehensive exam will take the form of the final project in **SCMT 5713 MAKE: Achieving Operational Excellence.** ~~SCMT 5623.~~ An individual's grade of B or above in the project will be considered a pass on the comprehensive exam.

Program Goals and Objectives

Program Goals and Objectives

The Sam M. Walton College of Business Master of Supply Chain Management is designed is for early-career supply chain professionals who want to return to school to receive advanced, specialized training in supply chain management. The degree is grounded in an understanding of the increasing complexity and breadth of the supply chain discipline, and within this context students will apply statistics, statistical modeling, forecasting techniques, operations research techniques, optimization, mathematical techniques, stochastic approaches, operations analysis, and the design and testing of evaluation models. Effective supply chain management also necessitates cross-functional expertise. Thus, students will choose to specialize in focus tracks to complement their supply chain courses, such as Business Analytics, Enterprise Resource Planning, Retail Supply Chain Management, and Blockchain Enterprise Systems.

Learning Outcomes

Learning Outcomes

Students will obtain an advanced specialized understanding of supply chain in innovation, sustainability, and marketing understanding along with a broad business perspective. They will also be able to adequately assess difficult challenges, integrate solutions, and manage long term change.

Reviewer Comments

Alice Griffin (agriffin) (08/30/21 2:00 pm): Reinserted SCMT 5713 in catalog text to remove error box.

Alice Griffin (agriffin) (08/30/21 2:10 pm): Revised LON to include new campus leaders and inserted approval dates. Also revised curriculum to match BOT formatting and renamed documents to match BOT naming convention.

Alice Griffin (agriffin) (08/30/21 2:17 pm): Changing the reason for the modification from reconfiguration to revising the curriculum to match the ADHE type of change and match the LON. This change does not impact the workflow, so I took the initiative versus rolling it back to the submitter.
