FDSC 5513	allcodes	FDSC 6513	FDSC 5513
	Proposed Effective Date	Spring 2021	Spring 2022

	Course Number	6513	5513
	Course Delivery Method	On campus Off campus	On campus
	Off Campus Delivery	Online/Web-based	
	Justification	There isn't any course that comprehensively addresses cereal processing and technology. We are strongly placed to offer this course for on camps and online delivery formats due to our very successful grain/rice processing program. There are very few similar courses within the region and this may attract students from other colleges too. Moreover, I have structured the course in modules. One of my other long-term goal is to extend this for professional development whereby a certificate in grain processing technology may be attained after successful completion of all the five modules. I think this may be attractive to growers and allied workers seeking to develop professionally and this opportunity could be used as an incentive for workforce development in the grain processing area.	An undergraduate course (FDSC 4513 Cereal Processing Technology) of comparable content is being created with the intent to teach as a combined section with this course and feel that 5000 level for the graduate students would be a better fit if teaching as a combined course.
	Course Code	FDSC 6513	FDSC 5513
	Syllabus	FDSC 6513 Cereal Processing Technology Syllabus - revised.pdf	FDSC 5513 Cereal Processing Technology Syllabus.pdf
	Reviewer Comments		skenner - Thu, 29 Apr 2021 16:56:29 GMT - Rollback: Per our discussion, rolling back to remove online/web-based delivery method at this time.
GEOS 4333	allcodes	GEOS 3313	GEOS 4333
	Proposed Effective Date	Fall 2020	Spring 2022
	Course Number	3313	4333
	Catalog Description	Megascopic study and classification of igneous and metamorphic rocks. Lecture 2 hours, laboratory 2 hours per week.	Elementary to advanced study of the origin and evolution of igneous and metamorphic rocks in a variety of plate tectonics settings. Lecture 2 hours, Laboratory 2 hours per week.
	Justification	Reframing the title to reflect the split from GEOS 2313 Mineralogy (formerly Mineralogy and Petrology).	The course number is increasing to "senior-level" due to an increase in difficulty and intellectual content of the course. This will also provide additional content for our increasing (though still small) number of undergraduate students who want more hard rock science.
	Course Code	GEOS 3313	GEOS 4333
	Is course a General Education Course?		No
	Syllabus		GEOS_4333_5333_syllabus.docx
	Reviewer Comments		ac087 - Mon, 30 Aug 2021 13:45:04 GMT - Spring 2022 effective date pending completion of approval process prior to registration. rcc003 - Tue, 07 Sep 2021 18:13:24 GMT - Updated justification to reference only ugrd students.
GEOS 5333		Added	
HIST 4063	allcodes	HIST 3053	HIST 4063
	Proposed Effective Date	Summer 2018	Spring 2022
	Course Number	3053	4063

	Justification	Updated typically offered field.	The upgrade of this course is justified by the student demand for more 4000 level course options, and by the instructing faculty's decision to upgrade the course also including a graduate section (a separate request for HIST 5063 is also submitted)
	Course Code	HIST 3053	HIST 4063
