Program Title

Public Health: Physical Activity Concentration

Program Delivery

Method

On Campus

Is this program interdisciplinary?

No

Does this proposal impact any courses from another College/School?

No

What are the total hours needed to complete the program? 12

Program Requirements and Description

Requirements

Concentration Requirements: Physical Activity (12 hours of the following) 1

EXSC-5323	Biomechanics†	3
<u>EXSC 5353</u>	Exercise Psychology	3
EXSC-5513	Physiology Exercise†	3
HHPR-699V	Seminar	3
<u>EXSC 5453</u>	<u>Physical Activity and Health</u>	<u>3</u>
<u>EXSC 5463 PROMOTING PHYSICAL ACTIVITY IN THE COMMUNITY</u>	<u>Course EXSC 5463 PROMOTING PHYSICAL ACTIVITY IN THE COMMUNITY Not Found</u>	<u>3</u>

Advisor Approved Elective **3**

Total Hours 12

Students should also be aware of Graduate School requirements with regard to [master's degrees](#).

1Students must receive a grade of B or better in courses associated with the required research component and required courses component.

Are Similar Programs available in the area?

Yes

List institutions in Arkansas offering similar programs

UAMS

List institutions in the surrounding region offering similar programs

Multiple institutions in the surrounding region offer a master in public health degree, but only one offers a concentration in public health physical activity - Kansas State University.

Why is the Program needed if offered at other institutions?

Overall employment of public health workers is projected to grow 11 percent from 2018 to 2028, much faster than the average for all occupations. Growth will be driven by efforts to improve health outcomes and to reduce healthcare costs by teaching people healthy behaviors and explaining how to use available healthcare services. As Arkansas ranks at or near last nationwide in most health outcomes, an emphasis on public health is needed. Since 1996, there has been a 300% increase in accredited schools and programs of

public health nationwide, and the University of Arkansas is one of but a very few land grant institutions that does not offer the MPH degree. In fact, most States have MPH degrees at multiple Colleges and Universities within their State.

The current M.S. in Community Health promotion is outdated and has been supplanted by the MPH degree, which is a professional degree and the recognized degree in the field of community and public health. With the increase in demand for public health workers, the U.S. has seen an increase in the number and diversity of public health graduates. In 2018, 47% of public health graduates were minority and 70% were female, with a nearly 6 times increase in graduates since 1975.

Description and justification of the request

Description of specific change	Justification for this change
EXSC 5323, EXSC 5513 and HHPR 699V were removed. EXSC 5453 and 5463 were added. In addition, an advisor approved elective statement was added.	The master of public health program is designed to provide students with coursework and experiences that are weighted in community interactions. EXSC 5453 and 5463 are more reflective of this goal. Additionally, the advisor approved elective was added to further develop a students selected concentration.
