Program Requirements and Description

Requirements

The Business Cybersecurity Graduate MicroCertificate in the Department of Information Systems is offered on campus and in a blended professional format, and it is designed to provide graduate students with specific IS knowledge. The demand for skilled professionals in information systems continues to outpace the supply of qualified applicants. Each six-hour MicroCertificate program is intended to be completed part-time and is open to individuals with backgrounds in any discipline. Six hours of MicroCertificate course credit with a grade of “B” or better can be used in the Information Systems Enterprise Systems Graduate Certificate, Master of Information Systems, and Master of Applied Business Analytics programs as applicable to the respective degree. Coursework may not be transferred from another university to meet the requirements of a MicroCertificate, and retroactive graduate credit is not allowed for a MicroCertificate.

Admission Requirements: The Department of Information Systems Graduate MicroCertificate credentials are credentials open to individuals with backgrounds in any discipline. Students must apply for the specific MicroCertificate credential and be admitted to the Graduate School of Business; the GMAT/GRE requirement is waived for the MicroCertificate credential. (Students who have earned a GPA 3.5 or better upon completion of the MicroCertificate and subsequently apply to the part-time Graduate Certificate in Enterprise Systems, the Master of Information Systems program (Professional M.I.S.), or Master of Applied Business Analytics program (Professional M.A.B.A) will not be required to submit a test score but must still apply and be admitted to the additional program). Information regarding Graduate School of Business admission requirements can be found earlier in this chapter.

Requirements for the Business Cybersecurity Graduate MicroCertificate (6 hours)

To receive the Business Cybersecurity Graduate MicroCertificate, students are required to take 6 hours of coursework in the Walton College of Business. Students are advised to check prerequisites prior to enrolling in a course.

Program Goals and Objectives

Program Goals and Objectives

CRITICAL THINKING/PROBLEM SOLVING

Students who have completed the Business Cybersecurity Graduate MicroCertificate will be able to identify, analyze, compare, and select systems and data to provide solutions to business problems using enterprise technology.

TECHNICAL COMPETENCE (Discipline Knowledge)

Students who have completed the Business Cybersecurity Graduate MicroCertificate will be able to develop and implement enterprise solutions to business problems.

Learning Outcomes

Learning Outcomes

Learning Objective (CTPS): Students will demonstrate critical thinking and strategic problem solving through classroom projects and/or exams.

Learning Objective (TCDK): Students will demonstrate the ability to design, develop, and utilize enterprise technology appropriately in the context of business applications.

Description and Justification for this request

Description of request	Justification for request
Creation of a Graduate MicroCertificate in Business Cybersecurity comprised of the first 2 course offerings in the 12 hour ENTSGC/Cybersecurity and Data Track Graduate Certificate.	To offer graduate students an introduction to the field of business cybersecurity in a shorter format of pre-existing courses.

Reviewer Comments

Alice Griffin (agriffin) (07/26/21 1:05 pm): Changed effective date from fall 2022 to spring 2022 with input from the submitter. A new program can become effective mid-year.

Alice Griffin (agriffin) (07/26/21 1:10 pm): Minor edits to catalog copy with input from submitter.

Alice Griffin (agriffin) (08/24/21 1:34 pm): Removing Scheduled Program Review Date. MicroCertificates will not be reviewed.

Pat Koski (pkoski) (10/07/21 9:30 am): Rollback: Needs to include approval for hybrid delivery.
