College Admission Requirements

To apply for honors, students should visit the Honors College website at honorscollege.uark.edu and click on Apply. There they can review admission requirements and the honors program requirements in their college. Honors-eligible new freshmen should fill out the Honors College Application, available online. To register for honors classes in their first semester, they should apply before attending freshman orientation.

New transfer students and current students should contact the honors program director or assistant director in their college to determine eligibility and, for some programs, which form of honors (four-year or departmental) would best meet their needs. Then they should fill out the Honors College Application form. The list of honors program directors and both honors application forms are available online at honorscollege.uark.edu.

The chart below contains basic requirements for each of the honors programs. For detailed information, see the individual honors program sections for each college or school in this catalog. Note that honors admission is based on the highest composite ACT or SAT score, not on superscores. In calculating GPA, extra weight is given only for Advanced Placement and International Baccalaureate courses.

College or School	New Freshmen	Current Students
Bumpers College of Agricultural, Food and Life Sciences	Minimum 28 ACT composite or 1310 SAT and 3.75 high school GPA are eligible for automatic admission. Students with a 3.9 high school GPA can submit an essay and academic resume for application review.	3.5 cumulative University of Arkansas GPA

Description and justification of the request

Description of specific change	Justification for this change
Changing high-school GPA requirement for new freshmen from 3.5 to 3.75 for AFLS, ARCH, and COEHP.	This brings all college honors programs to a uniform 3.75 high-school GPA requirement. The change has been approved by the three colleges' honors programs and is supported by the Honors College. This change would only have affected 12 students last year.
