The program change requested to delete the program. The proposal was approved without opposition and will be forwarded for the December 2009 Graduate Council meeting.

5. Other Business:

As an informational item, Lisa Kulczak informed the committee of the Registrar's intention to use GFFT 500 as a dummy class to indicate that a student receiving a research fellowship should be considered full-time. The Graduate School has a policy of treating most fellowship-only recipients (NSF, SMART, GEM, IGERT, etc) the same as graduate assistants with respect to enrollment requirements. Having this additional designation would allow the policy to be applied uniformly. There was no discussion following the presentation.

Meeting was adjourned at 3:07 PM.

SECTION V: Proposed Changes to an Existing Program or Program Policies

Insert here a statement of the exact changes to be made: We (the EUST Steering Committee) propose to add a study abroad requirement to the European Studies major. Students will be required to undertake an approved study abroad program of at least one semester's duration. In the absence of a modern European language co-major or minor the student will be required to attend the University of Arkansas in Rome where a series of EUST classes will be offered by visiting Fulbright faculty. A major reason for using the Rome program is that it will be easy for a EUST major to earn up to 15 hours of credit in EUST coursework. Courses in other programs offered by other institutions may be hard to transfer as EUST credit such that a major would have to take extra coursework on campus that could delay timely graduation. Students may also attend an approved program in another European country if they can demonstrate a compelling academic reason that requires them to study in that country (such as honors thesis research).

Check if either of these boxes apply and provide the necessary signature:

- Program change proposal adds courses offered by another academic college, and that college dean's office has been notified. The signature of the dean of that academic college is required here: _____
- Program change proposal deletes courses offered by another academic college, and that college dean's office has been notified. The signature of the dean of that academic college is required here: _____

Check all the boxes that apply and complete the required sections of the form:

- Change of Name and Code (Complete only sections I, II, V and VII.)
- Change Course Requirements: (Complete all sections of the form except "Proposed Name" in II, section III, and section IV.)
- Change Delivery Site/Method (Complete all sections of the form except "Proposed Name" in II, section III, and section IV.)
- Change Total Hours (Complete all sections of the form except "Proposed Name" in II, section III, and section IV.)
- Change in Program Policies

SECTION VI: Justification

Justify this change and state its likely effect on any other degree program (including those outside the school or college). Identify any program or program components (other than courses) to be eliminated if this program is implemented. (Program and course change forms must also be submitted for such related changes.)

It is impossible to gain genuine expertise in European Studies without spending an extended period of time working and living in a non-Anglophone European country. An increasing number of our peer institutions (notably the University of Oklahoma and the University of Texas-Austin) have begun to require students majoring in European Studies to undertake an extended study abroad period (at least six weeks) in order to more completely familiarize themselves with the practical and cultural realities of living in Europe. At the University of Arkansas, approximately 75% of the current EUST majors have or plan to undertake such an experience. However, these are often students with a modern European language as their co-major. The students who co-major in non-language specialties such as IR (our largest joint major) PLSC, HIST or GEOG are less likely to go abroad and when they do, they overwhelmingly concentrate on studies in Britain and Ireland. While this experience is not useless, it is not truly a European experience as both those countries have become increasingly Americanized over the last 30 years. The requirement that such students use the U of A Rome program as their approved study abroad option solves this problem by immersing the students in an English language teaching environment, with instructors who are familiar to them, and a foreign language living environment. In addition, all the classes offered to the students at the Rome program will be EUST classes. This solves a long standing problem of students being unable to transfer all their study abroad credits back into EUST because they are transferred in as HIST, FLAN or other departmental credits of which only a limited number of hours can qualify for EUST.

Not all students will be required to go to Rome, any student with a major or minor in a modern European language will be able to choose a program in the country of their language specialization. It will also be possible for students to choose another European program if they have a compelling academic reason to be in a country other than Italy (such as a program that aids with honors thesis research).

The EUST program is planning several initiatives to reduce the financial burden that this new requirement will place on students. We are proposing to allow students to pay the Rome Center program fee over a period of four or six semesters and to have that fee attached to student accounts in such a way as it allows them to include it in their financial aid packages. In addition we are planning a fund drive to raise scholarship money that will be dedicated to this program. It should also be noted that a large number of the EUST students are honors students and have access to substantial study abroad and academic scholarships.

SECTION VII: Catalog Text and Format

In the box below, insert the current catalog text which is to be changed, with changes highlighted with the color yellow. Include all proposed changes identified in Section V. Only changes explicitly stated in Section V will be considered for approval by the University Course and Programs Committee, the Graduate Council and the Faculty Senate. If you are proposing a new program, give proposed text with all of the elements listed below. If you are proposing modified text, include these elements as appropriate.

Include the following elements, in order, in the catalog text for proposed undergraduate program(s) or program changes:

- State complete major/program name
- Briefly define or describe the major/program or discipline.
- Identify typical career goals or paths for graduates. (Optional)
- State admission requirements (if any) for entry or entry into upper/advanced level of major/program.
- Identify location in catalog of university, college/school, and department/program requirements which the student must meet in addition to hours in the major, but do not restate these requirements.
- State course requirements in the major and any allied areas, giving number of hours and specific courses; specify electives or elective areas and give numbers of hours and courses in elective pools or categories; identify any other course requirements.
- State any other requirements (required GPA, internship, exit exam, project, thesis, etc.).
- Identify name and requirements for each concentration (if any).
- Specify whether a minor or other program component is allowed or required and provide details.
- State eight-semester plan requirements

For minors, state requirements in terms of hours, required courses, electives, etc.

For graduate program/units, include elements (as needed) parallel to those listed for undergraduate programs above.

For Law School program/units, prepare text consistent with current catalog style.

For centers, prepare text consistent with current catalog style.

Students without a language co-major or minor are required to attend the University of Arkansas Rome Program for at least one semester. At least 9 and a maximum of 18 hours of credit towards the EUST major may be earned during study abroad. Exemptions to this requirement will be considered on a case-by-case basis and will be considered only a) if the student has a compelling academic reason for conducting study abroad in another European country or b) if the student can demonstrate that the semester abroad requirement would entail significant personal or financial hardship.

Justify this change and state its likely effect on any other degree program (including those outside the school or college). Identify any program or program components (other than courses) to be eliminated if this program is implemented. (Program and course change forms must also be submitted for such related changes.)

In Spring 2009 the Russian Studies program at the U of A was terminated and all students in the program were transferred to European Studies. As a part of this process the EUST Steering committee agreed that all classes that had formerly been a part of the Russian studies program would now count towards the EUST major/minor. This requires only that we change the catalog language to reflect the additional courses that are now available for EUST students.

Requirements for a Major in European Studies – Language Requirement: Students must complete the equivalent of a third year of a modern European language, e.g., six hours of advanced 3000- or 4000-level work in French, German, or Spanish. Less commonly taught languages such as Portuguese, **Russian** or Italian may be used, subject to the availability of courses. Three to six hours in an approved study abroad program in Europe may substitute for all or part of this requirement. For native speakers of a European language other than English, this requirement is waived.

Electives: Students must complete at least 18 hours of credit.....

....**Foreign Languages**

Any 3000- or 4000-level French, German, Italian, **Russian** or peninsular Spanish literature or civilization course.

SECTION VI: Justification

Justify this change and state its likely effect on any other degree program (including those outside the school or college). Identify any program or program components (other than courses) to be eliminated if this program is implemented. (Program and course change forms must also be submitted for such related changes.)

It is impossible to claim genuine expertise in an area study without at least visiting the region in question. Consequently, students wishing to minor in EUST will be required to travel to Europe as part of an approved academic program with a duration of not less than three weeks. Such a requirement is entirely consistent with the requirements of similar programs in our peer institutions. There will be no restrictions on the location or language medium of the program other than that it is contained within the boundaries of the region traditionally considered to be Europe.

SECTION VII: Catalog Text and Format

In the box below, insert the current catalog text which is to be changed, with changes highlighted with the color yellow. Include all proposed changes identified in Section V. Only changes explicitly stated in Section V will be considered for approval by the University Course and Programs Committee, the Graduate Council and the Faculty Senate. If you are proposing a new program, give proposed text with all of the elements listed below. If you are proposing modified text, include these elements as appropriate.

Include the following elements, in order, in the catalog text for proposed undergraduate program(s) or program changes:

- State complete major/program name
- Briefly define or describe the major/program or discipline.
- Identify typical career goals or paths for graduates. (Optional)
- State admission requirements (if any) for entry or entry into upper/advanced level of major/program.
- Identify location in catalog of university, college/school, and department/program requirements which the student must meet in addition to hours in the major, but do not restate these requirements.
- State course requirements in the major and any allied areas, giving number of hours and specific courses; specify electives or elective areas and give numbers of hours and courses in elective pools or categories; identify any other course requirements.
- State any other requirements (required GPA, internship, exit exam, project, thesis, etc.).
- Identify name and requirements for each concentration (if any).
- Specify whether a minor or other program component is allowed or required and provide details.
- State eight-semester plan requirements

SECTION V: Proposed Changes to an Existing Program or Program Policies

Insert here a statement of the exact changes to be made: Currently, International Relations majors are required to complete a minor (15-18 hours) in one of 9 disciplines (one of which is European Studies), consisting of approved international-related

courses. We wish for students in the International Relations major who choose to focus on European Studies to have the full-semester study abroad experience that is being required of the European Studies co-major. IR majors (if European Studies is their discipline-specific specialty) will be required complete the requirements for the co-major in European Studies (in lieu of selecting a disciplinary minor) and we will remove European Studies as one of the eligible disciplines from the list minors required for International Relations.

Check if either of these boxes apply and provide the necessary signature:

- Program change proposal adds courses offered by another academic college, and that college dean's office has been notified. The signature of the dean of that academic college is required here: _____
- Program change proposal deletes courses offered by another academic college, and that college dean's office has been notified. The signature of the dean of that academic college is required here: _____

- Change of Name and Code (Complete only sections I, II, V and VII.)
- Change Course Requirements: (Complete all sections of the form except "Proposed Name" in II, section III, and section IV.)
- Change Delivery Site/Method (Complete all sections of the form except "Proposed Name" in II, section III, and section IV.)
- Change Total Hours (Complete all sections of the form except "Proposed Name" in II, section III, and section IV.)
- Change in Program Policies

SECTION VI: Justification

Justify this change and state its likely effect on any other degree program (including those outside the school or college). Identify any program or program components (other than courses) to be eliminated if this program is implemented. (Program and course change forms must also be submitted for such related changes.)

These changes are desired to coordinate with the proposed study abroad requirement being made in the European Studies area studies program. Students who major in International Relations and specify their discipline specialty (proposed to be a co-major in lieu of the minor) in European Studies (all International Relations majors are currently required to select a minor in one of 10 selected disciplines: anthropology, economics, geography, history, political science, Asian studies, European studies, Latin American and Latino studies, and Middle East studies) will be required to participate in the University of Arkansas Rome program for at least one semester as do all European Studies co-majors. (Exceptions noted below.)

It is impossible to gain genuine expertise in European Studies without spending an extended period of time working and living in a non-Anglophone European country. An increasing number of our peer institutions (notably the University of Oklahoma and the University of Texas-Austin) have begun to require students majoring in European Studies to undertake an extended study abroad period (at least six weeks) in order to more completely familiarize themselves with the practical and cultural realities of living in Europe. At the University of Arkansas, approximately 75% of the current EUST majors have or plan to undertake such an experience; however, these are often students with a modern European language as their co-major. The students who co-major in non-language specialties such as IR (our largest joint major) PLSC, HIST or GEOG are less likely to go abroad and when they do, they overwhelmingly concentrate on studies in Britain and Ireland. While this experience is not useless, it is not truly a European experience as both those countries have become increasingly Americanized over the last 30 years. The requirement that such students use the U of A Rome program as their approved study abroad option solves this problem by immersing the students in an English language teaching environment, with instructors who are familiar to them, and a foreign language living environment. In addition, all the classes offered to the students at the Rome program will be EUST classes. This solves a long standing problem of students being unable to transfer all their study abroad credits back into EUST because they are transferred in as HIST, FLAN or other departmental credits of which only a limited number of hours can qualify for EUST.

Not all students will be required to go to Rome; any student with a major or minor in a modern European language will be able to choose a program in the country of their language specialization. It will also be possible for students to choose another European program if they have a compelling academic reason to be in a country other than Italy (such as a program that aids with honors thesis research).

The EUST program is planning several initiatives to reduce the financial burden that this new requirement will place on students. We are proposing to allow students to pay the Rome Center program fee over a period of four or six semesters and to have that fee attached to student accounts in such a way as it allows them to include it in their financial aid packages. In addition we are planning a fund drive to raise scholarship money that will be dedicated to this program. It should also be noted that a large number of the EUST students are honors students and have access to substantial study abroad and academic scholarships.

SECTION VII: Catalog Text and Format

In the box below, insert the current catalog text which is to be changed, with changes highlighted with the color yellow. Include all proposed changes identified in Section V. Only changes explicitly stated in Section V will be considered for approval by the University Course and Programs Committee, the Graduate Council and the Faculty Senate. If you are proposing a new program, give proposed text with all of the elements listed below. If you are proposing modified text, include these elements as appropriate.

Include the following elements, in order, in the catalog text for proposed undergraduate program(s) or program changes:

- State complete major/program name
- Briefly define or describe the major/program or discipline.
- Identify typical career goals or paths for graduates. (Optional)
- State admission requirements (if any) for entry or entry into upper/advanced level of major/program.
- Identify location in catalog of university, college/school, and department/program requirements which the student must meet in addition to hours in the major, but do not restate these requirements.
- State course requirements in the major and any allied areas, giving number of hours and specific courses; specify electives or elective areas and give numbers of hours and courses in elective pools or categories; identify any other course requirements.
- State any other requirements (required GPA, internship, exit exam, project, thesis, etc.).
- Identify name and requirements for each concentration (if any).
- Specify whether a minor or other program component is allowed or required and provide details.
- State eight-semester plan requirements

For minors, state requirements in terms of hours, required courses, electives, etc.

For graduate program/units, include elements (as needed) parallel to those listed for undergraduate programs above.

For Law School program/units, prepare text consistent with current catalog style.

For centers, prepare text consistent with current catalog style.

SECTION VI: Justification

Justify this change and state its likely effect on any other degree program (including those outside the school or college). Identify any program or program components (other than courses) to be eliminated if this program is implemented. (Program and course change forms must also be submitted for such related changes.)

Updating the BA degree to include multidisciplinary studies providing a wider range of options.

SECTION VII: Catalog Text and Format

In the box below, insert the current catalog text which is to be changed, with changes highlighted with the color yellow. Include all proposed changes identified in Section V. Only changes explicitly stated in Section V will be considered for approval by the University Course and Programs Committee, the Graduate Council and the Faculty Senate. If you are proposing a new program, give proposed text with all of the elements listed below. If you are proposing modified text, include these elements as appropriate.

Include the following elements, in order, in the catalog text for proposed undergraduate program(s) or program changes:

- State complete major/program name
- Briefly define or describe the major/program or discipline.
- Identify typical career goals or paths for graduates. (Optional)
- State admission requirements (if any) for entry or entry into upper/advanced level of major/program.
- Identify location in catalog of university, college/school, and department/program requirements which the student must meet in addition to hours in the major, but do not restate these requirements.
- State course requirements in the major and any allied areas, giving number of hours and specific courses; specify electives or elective areas and give numbers of hours and courses in elective pools or categories; identify any other course requirements.
- State any other requirements (required GPA, internship, exit exam, project, thesis, etc.).
- Identify name and requirements for each concentration (if any).
- Specify whether a minor or other program component is allowed or required and provide details.
- State eight-semester plan requirements

For minors, state requirements in terms of hours, required courses, electives, etc.

For graduate program/units, include elements (as needed) parallel to those listed for undergraduate programs above.

For Law School program/units, prepare text consistent with current catalog style.

For centers, prepare text consistent with current catalog style.

Catalog Text:

Allow students in program to complete under this program until Term: Year:

SECTION V: Proposed Changes to an Existing Program

Insert here a statement of the exact changes to be made: Change #1: The department has added some new courses to the curriculum. We would like to classify those courses in the three groups from which majors choose their classes. Specifically,

we wish to add HIST 3453, HIST 4153 and HIST 4793 to group 1. Add HIST 3453, HIST 4263 and HIST 4363 to group 2. Add HIST 3453, HIST 4093, HIST 4383, HIST 4483, HIST 4583, HIST 4603 and HIST 4943 to group 3 and remove HIST 4423 from group 3.

Change #2: We would also like to add "Middle East" to Group 2 as the courses taught have Middle East in their title and not Near East. However we still want to maintain Near East in the group title as well.

Change #3: The history department wishes to eliminate Western Civilization I and II (HIST 1003 and 1013) from its list of courses that can be taken to satisfy requirements for the history major.

Check if either of these boxes apply and provide the necessary signature:

- Program change proposal adds courses offered by another academic college. The signature of the dean of that academic college is required here: _____
- Program change proposal deletes courses offered by another academic college. The signature of the dean of that academic college is required here: _____

Check all the boxes that apply and complete the required sections of the form:

- Change of Name and Code (Complete only sections I, II, V and VII.)
- Change Course Requirements: (Complete all sections of the form except "Proposed Name" in II, section III, and section IV.)
- Change Delivery Site/Method (Complete all sections of the form except "Proposed Name" in II, section III, and section IV.)
- Change Total Hours (Complete all sections of the form except "Proposed Name" in II, section III, and section IV.)

SECTION VI: Justification

Justify this change and state its likely effect on any other degree program (including those outside the school or college). Identify any program or program components (other than courses) to be eliminated if this program is implemented. (Program and course change forms must also be submitted for such related changes.)

#1 and #2: As faculty add courses in their fields, it is paramount that the department classify those new courses into the three groups that students can draw from to meet their major requirements.

#3: The University of Arkansas supports diversity in the student and faculty bodies as well as course offerings to students. The History Department subscribes to William J. Fulbright's international mission and emphasis and believes that we will do students a better service by offering a more global perspective in our general education courses. The History profession has moved away from teaching western civilization towards teaching world civilization as the primary introductory history subject matter.

SECTION VII: Catalog Text and Format

Insert the current catalog text, with proposed changes identified in Section V inserted and tracked in Microsoft Word. Be sure that all proposed changes are inserted and tracked. Only changes explicitly stated in Section V will be considered for approval by the University Course and Programs Committee, the Graduate Council and the Faculty Senate.

Include the following elements, in order, in the catalog text for proposed undergraduate program(s) or program changes:

- State complete major/program name
- Briefly define or describe the major/program or discipline.
- Identify typical career goals or paths for graduates. (Optional)
- State admission requirements (if any) for entry or entry into upper/advanced level of major/program.

Include the following elements, in order, in the catalog text for proposed undergraduate program(s) or program changes:

- State complete major/program name
- Briefly define or describe the major/program or discipline.
- Identify typical career goals or paths for graduates. (Optional)
- State admission requirements (if any) for entry or entry into upper/advanced level of major/program.
- Identify location in catalog of university, college/school, and department/program requirements which the student must meet in addition to hours in the major, but do not restate these requirements.
- State course requirements in the major and any allied areas, giving number of hours and specific courses; specify electives or elective areas and give numbers of hours and courses in elective pools or categories; identify any other course requirements.
- State any other requirements (required GPA, internship, exit exam, project, thesis, etc.).
- Identify name and requirements for each concentration (if any).
- Specify whether a minor or other program component is allowed or required and provide details.
- State eight-semester plan requirements

For minors, state requirements in terms of hours, required courses, electives, etc.

For graduate program/units, include elements (as needed) parallel to those listed for undergraduate programs above.

For Law School program/units, prepare text consistent with current catalog style.

Justify this change and state its likely effect on any other degree program (including those outside the school or college). Identify any program or program components (other than courses) to be eliminated if this program is implemented. (Program and course change forms must also be submitted for such related changes.)

The courses MATH 2701 and MATH 3093 are designed to help our students transition into the higher level abstract courses: Math 2701 serves as an introduction to the culture and methods of the world of mathematics—which are quite different than the expectations of many math majors! In addition this course is designed to draw students closer into the life of the department; there will be social activities, ties to the math club and future teachers club, etc, and presentations on careers, undergraduate research opportunities.

Math 3093 replaces Math 3083; both cover Linear Algebra, but 3093 emphasizes proof and abstraction, preparing students for the abstract perspective that awaits them in their higher level course work.

Requiring at least eligibility for Math 2554 or a higher course to declare a major is intended to ensure a certain minimal mathematical maturity of our majors. We often have students declare a math major while enrolled in College Algebra or even MATH 0003 (!) simply because it is one subject they've heard of since elementary school. This is usually highly unrealistic, and distracts the department from identifying and focusing our attention on students who are more likely to actually remain math majors.

SECTION VII: Catalog Text and Format

In the box below, insert the current catalog text which is to be changed, with changes highlighted with the color yellow. Include all proposed changes identified in Section V. Only changes explicitly stated in Section V will be considered for approval by the University Course and Programs Committee, the Graduate Council and the Faculty Senate. If you are proposing a new program, give proposed text with all of the elements listed below. If you are proposing modified text, include these elements as appropriate.

Include the following elements, in order, in the catalog text for proposed undergraduate program(s) or program changes:

- State complete major/program name

- Identify typical career goals or paths for graduates. (Optional)
- State admission requirements (if any) for entry or entry into upper/advanced level of major/program.
- Identify location in catalog of university, college/school, and department/program requirements which the student must meet in addition to hours in the major, but do not restate these requirements.

- State any other requirements (required GPA, internship, exit exam, project, thesis, etc.).
- Identify name and requirements for each concentration (if any).
- Specify whether a minor or other program component is allowed or required and provide details.

For minors, state requirements in terms of hours, required courses, electives, etc.

For graduate program/units, include elements (as needed) parallel to those listed for undergraduate programs above.

For Law School program/units, prepare text consistent with current catalog style.

For centers, prepare text consistent with current catalog style.

The Department of Mathematical Sciences is committed to high level mathematics instruction, preparing students for careers in secondary education, actuarial science and industry, and for entrance into graduate studies in mathematics and statistics. The Bachelor of Arts degree is often sought by future secondary education majors or by students wishing a broader exposure to the humanities. The Bachelor of Science degree is sought by students who intend to go on to graduate studies or who would like a deeper and broader understanding of higher mathematics. Enrollment in or completion of any course at the level of MATH 2554 or higher is required to enter into the Mathematics program.

Requirements for a Major in Mathematics, B.A. Degree: MATH 2103, MATH 2574, **MATH 2701**, MATH 4932 and 18 semester hours of courses in mathematics numbered above 3000, including MATH **3083 or 3093**, and MATH 3113, and the completion of a senior writing project under the direction of a faculty member; **this is typically carried out in MATH 4932. An honors senior thesis will satisfy this requirement. In addition to the requirements for the major, students must complete the core curriculum requirements for the Fulbright College Bachelor of Arts degree.**

Writing Requirement for both B.A. and B.S. Degrees: The writing requirement for mathematics majors will be satisfied by writing a paper based on the student's research of a mathematical topic under the direction of a faculty member. Typically, one hour of credit in MATH 400V will be awarded for successfully completing the paper. An honors paper or senior thesis will satisfy this requirement. The student should consult his or her adviser for details.

SECTION VI: Justification

Justify this change and state its likely effect on any other degree program (including those outside the school or college). Identify any program or program components (other than courses) to be eliminated if this program is implemented. (Program and course change forms must also be submitted for such related changes.)

The courses MATH 2701 and MATH 3093 are designed to help our students transition into the higher level abstract courses: Math 2701 serves as an introduction to the culture and methods of the world of mathematics—which are quite different than the expectations of many math majors! In addition this course is designed to draw students closer into the life of the department; there will be social activities, ties to the math club and future teachers club, etc, and presentations on careers, undergraduate research opportunities.

Math 3093 replaces Math 3083; both cover Linear Algebra, but 3093 emphasizes proof and abstraction, preparing students for the abstract perspective that awaits them in their higher level course work.

Requiring at least eligibility for Math 2554 or a higher course to declare a major is intended to ensure a certain minimal mathematical maturity of our majors. We often have students declare a math major while enrolled in College Algebra or even MATH 0003 (!) simply because it is one subject they've heard of since elementary school. This is usually highly unrealistic, and distracts the department from identifying and focusing our attention on students who are more likely to actually remain math majors.

SECTION VII: Catalog Text and Format

In the box below, insert the current catalog text which is to be changed, with changes highlighted with the color yellow. Include all proposed changes identified in Section V. Only changes explicitly stated in Section V will be considered for approval by the University Course and Programs Committee, the Graduate Council and the Faculty Senate. If you are proposing a new program, give proposed text with all of the elements listed below. If you are proposing modified text, include these elements as appropriate.

Include the following elements, in order, in the catalog text for proposed undergraduate program(s) or program changes:

- State complete major/program name
- Briefly define or describe the major/program or discipline.
- Identify typical career goals or paths for graduates. (Optional)
- State admission requirements (if any) for entry or entry into upper/advanced level of major/program.
- Identify location in catalog of university, college/school, and department/program requirements which the student must meet in addition to hours in the major, but do not restate these requirements.
- State course requirements in the major and any allied areas, giving number of hours and specific courses; specify electives or elective areas and give numbers of hours and courses in elective pools or categories; identify any other course requirements.
- State any other requirements (required GPA, internship, exit exam, project, thesis, etc.).
- Identify name and requirements for each concentration (if any).
- Specify whether a minor or other program component is allowed or required and provide details.
- State eight-semester plan requirements

For minors, state requirements in terms of hours, required courses, electives, etc.

For graduate program/units, include elements (as needed) parallel to those listed for undergraduate programs above.

For Law School program/units, prepare text consistent with current catalog style.

For centers, prepare text consistent with current catalog style.

[Proposed catalog changes/edited sections only:]

[immediately preceding Requirements for the BA Degree:]

The Department of Mathematical Sciences is committed to high level mathematics instruction, preparing students for careers in secondary education, actuarial science and industry, and for entrance into graduate studies in mathematics and statistics. The Bachelor of Arts degree is often sought by future secondary education majors or by students wishing a broader exposure to the humanities. The Bachelor of Science degree is sought by students who intend to go on to graduate studies or who would like a deeper and broader understanding of higher mathematics. Enrollment in or completion of any course at the level of MATH 2554 or higher is required to enter into the Mathematics program.

Requirements for B.A. Degree with a Major in Political Science

30 semester hours at least 21 of which must be 3000 and 4000 level classes

1. Students are required to take both PLSC 2003, American National Government and PLSC 2013, Introduction to Comparative Politics
2. Students must choose one of the following:
 - PLSC 2813, Introduction to International Relations
 - PLSC 3103, Public Administration
 - PLSC 3963, Modern European Political Thought.
3. Students fulfill the remaining requirements from among any of the available political science courses

At least 21 hours must be 3000-4000 level courses. No more than 9 hours may come from PLSC 300V, 394V, 498V, or 499V.

Writing Requirement: The College writing requirement is fulfilled by submitting an acceptable research/analytical paper to the department for approval at least four weeks prior to graduation. The paper may be derived from completion of an honors essay (PLSC 499VH), a senior thesis (PLSC 498V), or some other advanced course in political science. The student is urged to consult with his or her faculty adviser no later than early in the first semester of the senior year.

Combined Majors

Political Science and African-American Studies: For the requirements for the combined major in Political Science and African-American Studies, see African-American Studies (AAST).

Political Science and Journalism: The combined major in Political Science and Journalism is recommended for those students who have a strong interest in the reporting of public affairs as a career. The Political Science requirement may be satisfied by 24 semester hours of courses including PLSC 2003, PLSC 2013, PLSC 4373 and 15 additional hours of advanced Political Science courses selected from one or the other of two field concentrations. Those wishing to emphasize American political affairs may elect additional hours from the following:

PLSC 2203, PLSC 3103, PLSC 3153, PLSC 3183, PLSC 3223, PLSC 3233, PLSC 3243, PLSC 3253, PLSC 3273, PLSC 3603, PLSC 3853, PLSC 3913, PLSC 3923H, PLSC 3933, PLSC 394V, PLSC 399VH, PLSC 4193, PLSC 4203, PLSC 4213, PLSC 4233, PLSC 4243, PLSC 4253, PLSC 4293, PLSC 4303, PLSC 4313, PLSC 4903

Alternatively, a foreign affairs concentration may be pursued by electing hours from the following advanced courses:

PLSC 3503, PLSC 3523, PLSC 3533, PLSC 3553, PLSC 3573, PLSC 3603, PLSC 3803, PLSC 3813, PLSC 3823, PLSC 3853, PLSC 3923H, PLSC 394V, PLSC 3953, PLSC 3963, PLSC 399VH, PLSC 4513, PLSC 4563, PLSC 4573, PLSC 4593, PLSC 4803, PLSC 4813, PLSC 4823, PLSC 4833, PLSC 4843, PLSC 4873

For the eight-semester program plan or the Journalism requirements, see the combined major in Journalism and Political Science under Journalism (JOUR). Students should consult with their advisers in each department.

SECTION VI: Justification

Justify this change and state its likely effect on any other degree program (including those outside the school or college). Identify any program or program components (other than courses) to be eliminated if this program is implemented. (Program and course change forms must also be submitted for such related changes.)

A major goal of the Honors program is to provide the opportunity to be in a class with other honors students who will provide an academically exciting and enriching experience which is above and beyond what can be obtained by performing extremely well on a factual exam. Thus, awarding credit for PSYC 2003H Honors General Psychology is contrary to the spirit of the Honors Program. This change will make the credit for AP and IB exams consistent. We do not award credit for PSYC 2003H for any score on an IB test. And finally, since the recent changes to the requirements for the Fulbright Honors program allow students to fulfill their social science requirement with either an Honors or non-honors course, this change will not impact a student's ability to graduate with honors.

SECTION VII: Catalog Text and Format

In the box below, insert the current catalog text which is to be changed, with changes highlighted with the color yellow. Include all proposed changes identified in Section V. Only changes explicitly stated in Section V will be considered for approval by the University Course and Programs Committee, the Graduate Council and the Faculty Senate. If you are proposing a new program, give proposed text with all of the elements listed below. If you are proposing modified text, include these elements as appropriate.

Include the following elements, in order, in the catalog text for proposed undergraduate program(s) or program changes:

- State complete major/program name
- Briefly define or describe the major/program or discipline.
- Identify typical career goals or paths for graduates. (Optional)
- State admission requirements (if any) for entry or entry into upper/advanced level of major/program.
- Identify location in catalog of university, college/school, and department/program requirements which the student must meet in addition to hours in the major, but do not restate these requirements.
- State course requirements in the major and any allied areas, giving number of hours and specific courses; specify electives or elective areas and give numbers of hours and courses in elective pools or categories; identify any other course requirements.
- State any other requirements (required GPA, internship, exit exam, project, thesis, etc.).
- Identify name and requirements for each concentration (if any).
- Specify whether a minor or other program component is allowed or required and provide details.
- State eight-semester plan requirements

For minors, state requirements in terms of hours, required courses, electives, etc.

For graduate program/units, include elements (as needed) parallel to those listed for undergraduate programs above.

For Law School program/units, prepare text consistent with current catalog style.

Prior assignment from Office of Institutional Research is required.

Proposed Name Pre-Physician Assistant

When a program name is changed, enrollment of current students reflects the new name.

SECTION III: Add a New Program/Unit

[] For new program proposals, complete Sections II and VII and use as a cover sheet for a full program proposal as described in 'Criteria and Procedures for Preparing Proposals for New Programs in Arkansas.' ADHE

http://www.arkansashighered.com/pdfs/BookAppNewProgramCriteriaandProceduresRevised2005.pdf.

No new students admitted to program after Term: ____ Year: _____

Allow students in program to complete under this program until Term: ____ Year: _____

SECTION V: Proposed Changes to an Existing Program or Program Policies

Insert here a statement of the exact changes to be made: Create an advising plan code for a new pre-professional area, Pre-Physician Assistant, that will be added to the current list of pre-professional and pre-allied health tracks found in the Fulbright chapter of the catalog.

Check if either of these boxes apply and provide the necessary signature:

- Program change proposal adds courses offered by another academic college, and that college dean's office has been notified. The signature of the dean of that academic college is required here: _____
- Program change proposal deletes courses offered by another academic college, and that college dean's office has been notified. The signature of the dean of that academic college is required here: _____

Check all the boxes that apply and complete the required sections of the form:

- Change of Name and Code (Complete only sections I, II, V and VII.)
- Change Course Requirements: (Complete all sections of the form except "Proposed Name" in II, section III, and section IV.)
- Change Delivery Site/Method (Complete all sections of the form except "Proposed Name" in II, section III, and section IV.)
- Change Total Hours (Complete all sections of the form except "Proposed Name" in II, section III, and section IV.)
- Change in Program Policies

SECTION VI: Justification

Justify this change and state its likely effect on any other degree program (including those outside the school or college). Identify any program or program components (other than courses) to be eliminated if this program is implemented. (Program and course change forms must also be submitted for such related changes.)

The purpose of adding this code is to track students in this particular allied health program (which will become a new listing in the Fulbright chapter under the list of allied health and pre-professional programs). This will serve an advising purpose, as well as allow these students to be tracked for reporting purposes. This does not change or effect any other degree programs. This is simply a way to track students in a preprofessional program who currently cannot be identified, because there is no code for them. It would be similar to the allied health codes, such as PRPHTY (Pre-Physical Therapy) or PRMDTC (Pre-Medical Technology), that currently exist.

SECTION VII: Catalog Text and Format

In the box below, insert the current catalog text which is to be changed, with changes highlighted with the color yellow. Include all proposed changes identified in Section V. Only changes explicitly stated in Section V will be considered for approval by the University Course and Programs Committee, the Graduate Council and the Faculty Senate. If you are proposing a new program, give proposed text with all of the elements listed below. If you are proposing modified text, include these elements as appropriate.

Include the following elements, in order, in the catalog text for proposed undergraduate program(s) or program changes:

- State complete major/program name
- Briefly define or describe the major/program or discipline.
- Identify typical career goals or paths for graduates. (Optional)
- State admission requirements (if any) for entry or entry into upper/advanced level of major/program.
- Identify location in catalog of university, college/school, and department/program requirements which the student must meet in addition to hours in the major, but do not restate these requirements.
- State course requirements in the major and any allied areas, giving number of hours and specific courses; specify electives or elective areas and give numbers of hours and courses in elective pools or categories; identify any other course requirements.
- State any other requirements (required GPA, internship, exit exam, project, thesis, etc.).
- Identify name and requirements for each concentration (if any).
- Specify whether a minor or other program component is allowed or required and provide details.
- State eight-semester plan requirements

For minors, state requirements in terms of hours, required courses, electives, etc.

For graduate program/units, include elements (as needed) parallel to those listed for undergraduate programs above.

For Law School program/units, prepare text consistent with current catalog style.

For centers, prepare text consistent with current catalog style.

[the following will be inserted in the Fulbright chapter under Health Related Professions immediately following the Pre-Physical Therapy Program]

Pre-Physician Assistant Program: Although the pre-professional curriculum is similar for many physician assistant programs, the student should contact the professional school of his/her choice for specific admission requirements. Most of the following courses, typically with a minimum grade of "C," will be part of the prerequisite work for physician assistant programs in this region. However, each program is unique and may require courses not listed here. General requirements may include 16 hours of biological science, 19 hours of chemistry, 3 hours of college algebra or higher, 3 hours of statistics, 6 hours of psychology, and 6 hours of English composition.

All students planning careers as a physician assistant should contact the Fulbright College Advising Center, 518 Old Main, 479-575-3307, fcac.uark.edu.

- Change of Name and Code (Complete only sections I, II, V and VII.)
- Change Course Requirements: (Complete all sections of the form except "Proposed Name" in II, section III, and section IV.)
- Change Delivery Site/Method (Complete all sections of the form except "Proposed Name" in II, section III, and section IV.)
- Change Total Hours (Complete all sections of the form except "Proposed Name" in II, section III, and section IV.)
- Change in Program Policies

SECTION VI: Justification

Justify this change and state its likely effect on any other degree program (including those outside the school or college). Identify any program or program components (other than courses) to be eliminated if this program is implemented. (Program and course change forms must also be submitted for such related changes.)

The purpose of adding this code is to track students in this particular allied health program, Pre-Diagnostic Medical Sonography. This will serve an advising purpose, as well as allow these students to be tracked for reporting purposes. This does not change or effect any other degree programs. This is simply a way to track students in a preprofessional program who currently cannot be identified, because there is no code for them. It would be similar to the allied health codes, such as PRPHTY (Pre-Physical Therapy) or PRMDTC (Pre-Medical Technology), that currently exist.

SECTION VII: Catalog Text and Format

In the box below, insert the current catalog text which is to be changed, with changes highlighted with the color yellow. Include all proposed changes identified in Section V. Only changes explicitly stated in Section V will be considered for approval by the University Course and Programs Committee, the Graduate Council and the Faculty Senate. If you are proposing a new program, give proposed text with all of the elements listed below. If you are proposing modified text, include these elements as appropriate.

Include the following elements, in order, in the catalog text for proposed undergraduate program(s) or program changes:

- State complete major/program name
- Briefly define or describe the major/program or discipline.
- Identify typical career goals or paths for graduates. (Optional)
- State admission requirements (if any) for entry or entry into upper/advanced level of major/program.
- Identify location in catalog of university, college/school, and department/program requirements which the student must meet in addition to hours in the major, but do not restate these requirements.
- State course requirements in the major and any allied areas, giving number of hours and specific courses; specify electives or elective areas and give numbers of hours and courses in elective pools or categories; identify any other course requirements.
- State any other requirements (required GPA, internship, exit exam, project, thesis, etc.).
- Identify name and requirements for each concentration (if any).
- Specify whether a minor or other program component is allowed or required and provide details.
- State eight-semester plan requirements

For minors, state requirements in terms of hours, required courses, electives, etc.

For graduate program/units, include elements (as needed) parallel to those listed for undergraduate programs above.

For Law School program/units, prepare text consistent with current catalog style.

For centers, prepare text consistent with current catalog style.

No changes necessary to catalog copy.

Justify this change and state its likely effect on any other degree program (including those outside the school or college). Identify any program or program components (other than courses) to be eliminated if this program is implemented. (Program and course change forms must also be submitted for such related changes.)

HLSC is not able to offer HLSC 4263 Human Diseases every semester, therefore HLSC faculty has been substituting HLSC 4263 with HLSC 4613 Principles of Epidemiology if a student is unable to take Human Diseases in time to graduate in the 8 semester plan. This substitution is currently being done by program petition to the College of Education and Health Professions and this request would eventually eliminate the petitioning process.

Allow students in program to complete under this program until Term: Year:

SECTION V: Proposed Changes to an Existing Program or Program Policies

Insert here a statement of the exact changes to be made: KINS P-12 recommends adding HESC to the option of HLSC for electives so they can accept appropriate courses such as Nutrition and Health and Sport and Nutrition; also recommending and "Elective" category so that to complete the necessary 124 hours for graduation a student may use other classes (not just HLSC) for their electives if they have waivers, exemptions or transfer inequalities other than the exemption for Advanced Composition in which case the student would need to use 3 hours of HLSC electives.

Check if either of these boxes apply and provide the necessary signature:

- Program change proposal adds courses offered by another academic college, and that college dean's office has been notified. The signature of the dean of that academic college is required here: _____
- Program change proposal deletes courses offered by another academic college, and that college dean's office has been notified. The signature of the dean of that academic college is required here: _____

Check all the boxes that apply and complete the required sections of the form:

- Change of Name and Code (Complete only sections I, II, V and VII.)
- Change Course Requirements: (Complete all sections of the form except "Proposed Name" in II, section III, and section IV.)
- Change Delivery Site/Method (Complete all sections of the form except "Proposed Name" in II, section III, and section IV.)
- Change Total Hours (Complete all sections of the form except "Proposed Name" in II, section III, and section IV.)
- Change in Program Policies

SECTION VI: Justification

Justify this change and state its likely effect on any other degree program (including those outside the school or college). Identify any program or program components (other than courses) to be eliminated if this program is implemented. (Program and course change forms must also be submitted for such related changes.)

The way the current Catalog reads any P-12 student that would exempt from any course including Advanced Composition or English Comp I and II have to take all electives to make to total 124 hours from HLSC. It is the faculty's recommendation that that it is in the best interest of the student to allow non HLSC electives for any waivers, exemptions, and transfer inequalities other than Advanced Composition. In addition, the way the Catalog currently reads only HLSC electives will count for the Advanced Composition. It is the faculty's recommendation to include appropriate HESC courses particularly those in the area of "Nutrition."

SECTION VII: Catalog Text and Format

In the box below, insert the current catalog text which is to be changed, with changes highlighted with the color yellow. Include all proposed changes identified in Section V. Only changes explicitly stated in Section V will be considered for approval by the University Course and Programs Committee, the Graduate Council and the Faculty Senate. If you are proposing a new program, give proposed text with all of the elements listed below. If you are proposing modified text, include these elements as appropriate.

Include the following elements, in order, in the catalog text for proposed undergraduate program(s) or program changes:

- State complete major/program name
- Briefly define or describe the major/program or discipline.
- Identify typical career goals or paths for graduates. (Optional)
- State admission requirements (if any) for entry or entry into upper/advanced level of major/program.
- Identify location in catalog of university, college/school, and department/program requirements which the student must meet in addition to hours in the major, but do not restate these requirements.
- State course requirements in the major and any allied areas, giving number of hours and specific courses; specify electives or elective areas and give numbers of hours and courses in elective pools or categories; identify any other course requirements.
- State any other requirements (required GPA, internship, exit exam, project, thesis, etc.).
- Identify name and requirements for each concentration (if any).
- Specify whether a minor or other program component is allowed or required and provide details.
- State eight-semester plan requirements

For minors, state requirements in terms of hours, required courses, electives, etc.

For graduate program/units, include elements (as needed) parallel to those listed for undergraduate programs above.

For Law School program/units, prepare text consistent with current catalog style.

For centers, prepare text consistent with current catalog style.
